STEPS AND SEQUENCE

The objective of this paper is to outline the steps and actions to be taken to implement the GAIA Program as soon as possible should the opportunity be presented. To get the most value from this discussion it will be useful to visualize the economic position of the nation once the Program has been in place a few months. Probably the most startling concept to understand and accept is that no individual income tax, sin tax, value added tax, or any other tax burden on the people will be necessary. Tariffs and Customs Duty will be imposed to protect local producers and manufacturers; they will not be imposed on imported goods that are not produced or manufactured here.

Government, at all levels including Barangays, will have as much money as needed TO IMPROVE THE LIVING CONDITIONS OF THE PEOPLE; gov't will have none to squander on people who do not "earn their keep". However, when there is money at very low interest rates for all kinds of improvements: Schools, hospitals, civic facilities, roads and highways, water supply and treatment, waste water treatment, solid waste management, electricity and communications, and so on, there will be good-paying jobs for all of the people willing to work. The pride and self-esteem that comes from really earning one's way will soon draw the drones to become workers. Government supported "low-cost" housing will be a thing of the past because working people would rather buy or build a home they can improve and be proud of.

At the national level, such grand projects as were envisioned by Ferdinand Marcos and his teams of architects and engineers can be undertaken, just as all of the currently in-progress or unfinished infrastructure projects can be completed.

This can all be done with internally generated money; it will not require one centavo of foreign

investment or loan. As a matter of fact, the Republic of the Philippines will be able to make all of its interest and principal payments as scheduled and avoid any further harassment from lenders and their rating agencies. Credit ratings will no longer be a consideration since the RP will not need loans. And soon it will not need foreign exchange reserves because its gold-based money will be acceptable anywhere in the world.

With this foundation, we can consider next the:

DECISIONS TO BE RECOGNIZED AND CONSIDERED BEFORE ACTIONS CAN BE TAKEN

- A. Which will be the implementing agency, the BSP or the National Treasury?
 - (1) Advantages of BSP: It has the facilities, tools, experience, and personnel to refine, hallmark and manage the custodianship of gold, account reserves, monitor the banks, and issue currency/credit.
 - (2) Disadvantages of BSP: It is not accountable to or auditable by the people and is thus a haven of graft and corruption, not only for its own personnel but also for politicians and influential
- (Continued on page 2)

bureaucrats, and often serves as a conduit of bribes from the IMF/WB, USAID, AGILE, etc., to Administration appointees and legislators in aid of legislation favorable to foreigners. It is controlled by the BIS, not the people's government.

(3) Advantages of National Treasury: It is accountable to and auditable by the people and can be made quite graft-proof.

(4) Disadvantages of National Treasury: It is subordinate to the Dept of Finance, which also has responsibility for Customs and BIR. It lacks the stature to attract the very most competent and incorruptible leadership required.

B. Alternative Structure

(1) All of the advantages and none of the disadvantages of the National Treasury and the BSP can be had by folding the BSP into the National Treasury.

(2) By leaving the BIR and Customs responsibility with Dept of Finance, or abolishing Finance and putting them each at Cabinet level, Treasury can be split off and elevated to Cabinet level whereat all of the BSP functions and facilities can be absorbed. Treasury must also perform other, new, duties that will be outlined later in this paper.

(3) In this culture of Empire/Dynasty building, it will be necessary to assure that the Treasury remains responsive to the people (possibly through the use of an elected rotating Board of Directors) as well as incorruptible by either internal or external forces. Incorruptibility of the Treasury, however, can provide an environment in which graft and corruption are no longer necessary and would be very difficult to accomplish undetected.

THREE DAY IMPLEMENTATION:

A. As banking RESERVES the GAIA DEEDs are best suited for deposit in a government-controlled commercial bank such as Land Bank of the Philippines for the purpose of quick implementation. Authority to use the DEEDs in the same way as other US Treasury dept is used in the banking system can be accomplished by an order from the Chief Executive to the Treasury and thence to the Land Bank. With prior preparation that should take no longer than one-half hour.

B. At the same time, and in the same half hour, personnel should be dispatched to the Quezon City BSP mint facility to prevent sabotage or theft and assure its security. All disbursements will eventually be paid for by the purchase of gold by the government with newly issued currency/credit so that the gold is used as the banking reserves upon which the lines-of-credit are to be drawn.

C. Pursuant to prior estimates and information, GAIA can have prepared a Memorandum of Agreement (MOA) with the Administration, signed by the Chief Executive and Treasurer, and a series of DEEDs OF ASSIGNMENT FOR CONSIDERATION to fit particular needs such as funding past-due wages and pensions, distributions to local governments, past due payments on infrastructure projects, and most important, a major "emergency food fund" from which can be drawn payments for the immediate purchase and

distribution of food to the people.

D. By noon on Day One the MOA should be signed and the first group of DEEDs delivered to Land Bank, which will handle each project just as it would any new line-of-credit with check books issued to designated project heads and their co-signatories. Since there will be plenty of funds made available, the project head will be accountable and will have funds to hire clerks and accountants to keep track of how every centavo was

convoys of aircraft, seacraft and land transportation to transport the food to places where it can be staged for pickup by Barangay and other local governments for further distribution to local pickup areas such as schools, churches, bus and jeepney terminals, etc.

(1) For maximum impact, with each convoy the Administration could "embed" a newsperson with communications equipment to report the position,

progress and disposition of food to all of the areas. Radio, TV and newspapers could be asked to report, show, and publish stories of the progress until every last person is no longer hungry.

(2) As soon as control can be transferred to responsible personnel, The DILG and its Countrywide Development program can also be given its annual allotment for immediate distribution.

(3) The DILG should be tasked to inform the municipalities and all beneficiaries to submit estimates of real estate taxes due on all lands and properties that might qualify as belonging under the Original Certificate of Title (OCT) No. 01-4 so that the Tallano/Acop Foundation can begin to remit significant portions of its unpaid taxes since approximately 1968. Those monies can then be spent on repairs and improvements in each local area, providing employment for every person that wants to work and earn.

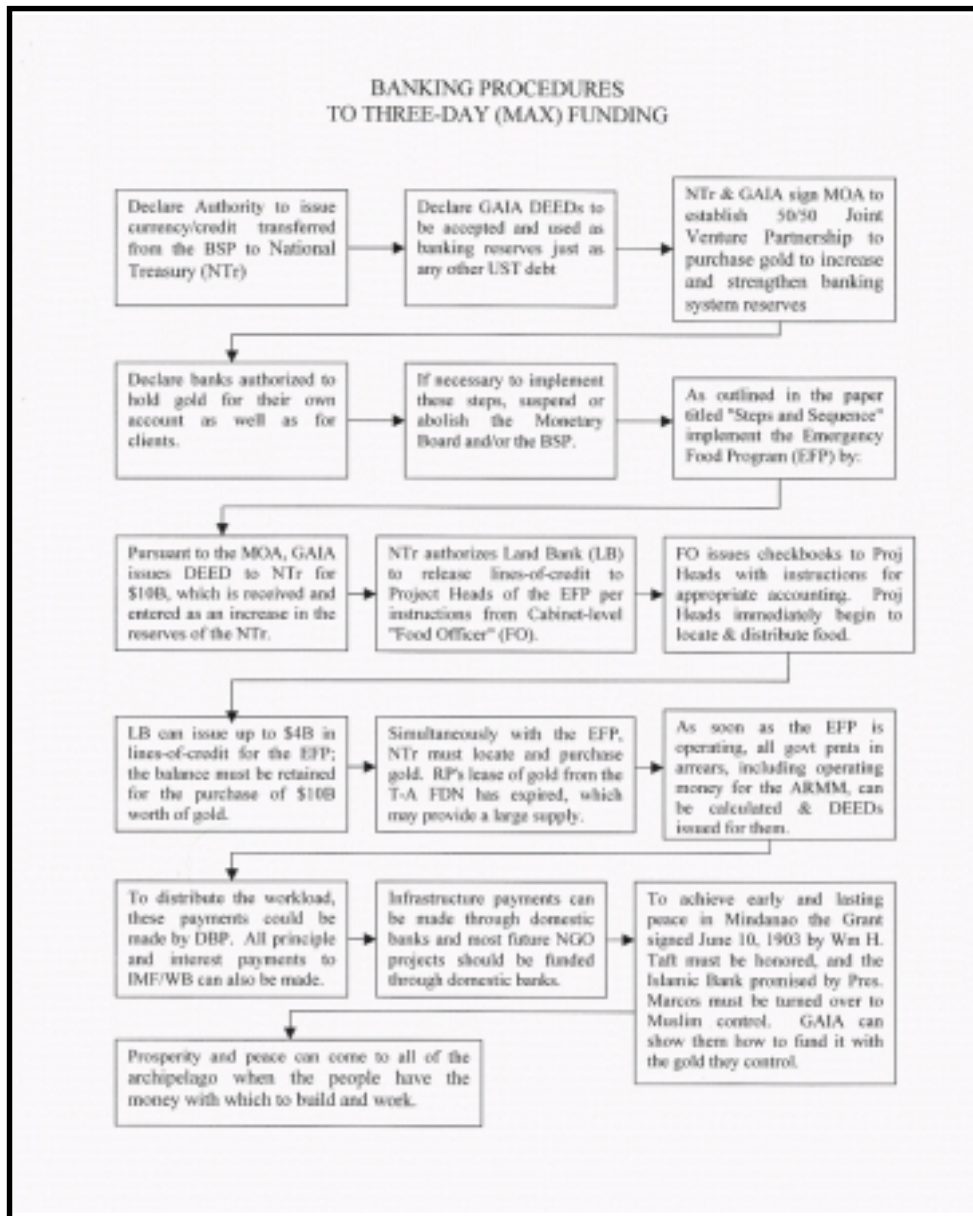

(4) To sustain and progress the program, the SAGIP PINOY can be given funding for its Trust and Foundation accounts so that it can begin its training programs nationwide. This training will lead to the cooperative self-control of people and result in moving rapidly toward a corruption-free society.

G. To accomplish maximum effect in the shortest time, all of those efforts can be funded by GAIA DEEDs through Land Bank and its

downstream rural banking system. Later on, as the banking system settles down, the DEEDs can be offered to commercial banks to assist them in stabilizing and strengthening their reserves.

H. Doubts have been expressed as to former or current existence of the gold purportedly leased by the government in 1948-49 from the (Tagean) Royal Family for the purpose of furnishing the reserves for the Central Bank, and now supposedly stored in the Quezon City BSP mint. Should it not be there, for whatever reason, it will not slow the program to feed the people and return the nation to prosperity. There is still a lot of buried, and sunken, treasure to be recovered; all that is required is a citizen-friendly Administration. We will not outline the easy steps to be taken to have that gold come in but we will note that there will be no shortage once those steps are taken.

I. Since a lot of gold is also held in "rebel-controlled" territory, we should mention that the Administration should feed those people and fund their projects without discrimination. When their trust and confidence have been earned, the National Treasury can also begin to buy their gold so that they will have their own funds with which to do projects.

spent.

E. While the project heads are disbursing funds to bring the government entities current in their payments, the new "emergency food fund" project head, as a new cabinet-level officer reporting direct to the Chief Executive, will be given the authority to feed the hungry. He can task the military and police, along with the transport unions, to distribute the food held in the Customs warehouses while at the same time traders and distributors can be hired to locate and buy local supplies and bring in supplies from outside where necessary. Customs personnel will know of incoming smuggling shipments that can be confiscated for distribution. Except for confiscated shipments, all of these supplies will be properly and immediately paid for with the Land Bank line-of-credit checks, which can be encashed through its branches everywhere. Military and Police personnel will no doubt be working a lot of overtime in the food distribution effort and should be paid double through their regular pay channels with funds drawn from Land Bank. The project head can establish a procedure to advance enough money to transportation companies to pay for fuel and wages with the balance to be settled as billed.

F. The entire AFP, Army, Navy, and Air Force should be tasked to organize mixed civilian and military

Enhancing Effectiveness Of 3-Day Funding Program

CONDITIONS THAT WILL ENHANCE THE EFFECTIVENESS OF THE THREE-DAY GAIA FUNDING PROGRAM

OVERVIEW

Global Alliance Investment Association (GAIA), as a worldwide provider of banking reserves to be used as supplemental collateral in the creation of beneficial infrastructure and livelihood projects, is ready, willing and able to assist ANY government and does not, can not, become involved with the citizens' selection of their leaders. In the Philippines, GAIA has introduced its services to both the Estrada and Arroyo Administrations, as well as to key members of the prior Administration, all of whom have ignored our offer of economic guidance and assistance. As conditions change, we must continue to be ready to assist.

We have been asked by several groups, some representing themselves to be from the current Administration as well as by other groups desiring to understand the economic options should the current president and vice president be disqualified or voluntarily elect to step down, to provide an outline of the steps required to arrest the current economic downtrend and reinvigorate the nation.

As publishers of an internationally distributed newspaper (in addition to our stewardship of the GAIA asset/program), our view of this archipelago and its people, and solutions to their problems, may appear to be simplistic. Our advantage is that we know who has created the problems, and by what means those problems are created. That subject has been addressed by other writings; suffice to summarize by saying that the nation is using a "fiat" (by government decree) baseless paper currency over which its government has no control, either of its value or quantity. The value is controlled by the International Banking Cartel (IBC) and the quantity is controlled by their tools, the IMF and World Bank through the imposition of "conditionalities" for the loans they grant.

Thus, the very foundation of the solution to this nation's economic problems, and the consequent upliftment of ALL of its citizens, is the proper use of its own natural wealth, much of which is in the form of gold, which all by itself is sufficient to put this country on an economic par with any of the G7 countries.

The use by the Philippines of its own natural resources is not in the interest of those G7 countries, or of any of their apparatus such as their International Banks, the IMF, World Bank, Asian Development Bank, etc., since it is their desire and intention that your natural resources, including your cheap labor, be utilized by them at the lowest possible cost. As long as the Philippines or any other target nation will accept the leadership of those who are willing to be bribed to do the bidding of the Globalists you will never escape the debt trap that has you ensnared.

The financial control of the Globalists depends upon your use of "fiat" paper money; when you

move to gold-based currency they lose control and you can regain your national SOVEREIGNTY. "They" have created the "mystique" that disparages the use of gold-based money, and predict that it is next to impossible to use. Gold and silver have been successfully used as money for thousands of years in a system that is much simpler and easy to use than the complicated, esoteric, baseless fiat system currently in vogue. Such a gold-based system was used by the USA from its formation June 21, 1788 until the Federal Reserve Act of 1913 while it grew from a few small "colonies" to the most dynamic nation in the world.

We are not recommending some new, untried money system; we are recommending the RETURN to a value-based system that was successfully used for thousands of years.

One of the many disparagements of the use of gold as the worldwide base of money is that there is not enough gold. If one believes the propaganda published by the Globalist-controlled media that the total amount of gold ever mined and refined is no more than 200,000 metric tons, one might accept such a premise. Fortunately, the truth is far different than that. In 1964 an agreement was reached between the Philippine government and the descendants of the Royal Family of King Luisong concerning, among other things, the lease of 617,500 metric tons of gold by the government from the Royal Family. That agreement was formally published as the DECISION WITH COMPROMISE AGREEMENT written by Judge Enrique Agana and issued February 4, 1972 pursuant to Case LRC /CC 3957-P in the court now known as the Pasay City Court, Branch 111. Certified copies of that case are available at that court and also at the Court of Appeals in case number CA G.R. SP. NO. 70014 dated April 9, 2002.

In his book *MARCOS LEGACY REVISITED: RAIDERS OF THE LOST GOLD* Erick San Juan has documented many tens of thousands of tons of gold recovered from the so-called "Yamashita" treasure buried by the Japanese during World War II, while estimating that less than one third of it has been recovered. Other authors have reached similar conclusions, some estimating even larger tonnages. That is one response to the critics of gold-based currency. Another equally valid response is that, properly distributed and utilized, only one ton of gold is more than adequate upon which to base all of the currencies of the world. To understand and agree with that statement may require some serious thought.

The point of this discussion in this paper is to dispel the myth and propaganda that the use of gold-based money is either old-fashioned or difficult. The Global Alliance offers a program of assistance to nations desiring to regain their SOVEREIGNTY by taking control of their money, which can only be done by returning to gold-based currency. The only thing difficult about it is deciding to do it.

In the following pages we will list a series of actions and steps to be taken to assure the success of the transition in the Republic of the Philippines.

I. Implement the Food Program

- A. In our document labeled "Steps & Sequence" we have detailed the proposed Emergency Food Program (EFP), the essence of which is to get ample food to every Filipino everywhere in the archipelago as soon as possible. Knowing that the money to support the program will be available in hours (not days), that program may be initiated immediately by a simple proclamation.
- B. The first DEED OF ASSIGNMENT FOR CONSIDERATION (DEED) will be issued to the Land Bank (LB) as instant RESERVES to be used to support its issuance of currency/credit to all of the participants of the EFP.

II. National Treasury Must Absorb the Bangko Sentral ng Pilipinas (BSP)

- A. The BSP was established and its debt transferred to the National Treasury (NTr) as the first step toward its Privatization. The intent was to privatize it in the image of the Bank of England and the Federal Reserve System under the ownership and control of the Rothschilds and their cronies in the International Banking Cartel (IBC). While it is reported that the privatization has not yet been accomplished, as chartered the BSP can serve no function that cannot be better served by the NTr, especially in a gold-based system.
- B. The BSP cannot be audited and is out of the control of the PEOPLE; the NTr can be made transparent to become the primary deterrent to graft and corruption.
- C. One of the primary uses of so-called "independent central banks" has been to provide the conduit for bribe money to be transferred out of countries for the benefit of politicians and bureaucrats (including Generals). The NTr will not be able to covertly do that.

III. Assure a Supply of Gold

- A. Mined Gold
 1. Decree, announce, and enforce a prohibition against the export of gold.
 2. Reverse the recent Supreme Court ruling allowing 100% foreign ownership of mines.
 3. Establish small buying stations at gold-mining centers.
 4. Pay a premium for all gold and silver purchased (the cost is zero).
- B. Gold Treasure
 1. Establish new permitting procedure for treasure recovery.
 2. Declare Amnesty for all gold sellers.
 3. Reestablish claim to territory within 200 miles of shoreline.
- C. Gold in Custody of BSP
 1. Inventory all physical assets (including gold, currency, debt instruments, etc.) and determine the lawful ownership and requirements for the release of same. This will require two teams, one to work in the "mint" to examine the physical assets, the other to examine the "paper" assets at the Ermita location of the BSP as well as the Archives of the NTr. Prior governors of the Central Bank could be most helpful in this effort.
 2. Particular attention must be given to the gold leased from the Royal Family as documented in the DECISION WITH COMPROMISE AGREEMENT written by Judge Enrique Agana in 1972. That lease expired in the year 2000. Had the royalty payments been kept current it could have been

extended to 2005 but, since they were not kept current, the lease has expired and the gold must be returned to the DON ESTEBAN BENITEZ TALLANO & DON GREGORIO MADRIGAL ACOP FOUNDATION, INC. (FDN or Foundation) that has been established for that purpose.

3. When the documentation of that lease entered into by the government in 1949 is recovered, or reconstituted, it must be formally terminated so that the gold is returned to the ownership and control of the Foundation.

4. The accumulated royalties, penalties, and interest thereon owed by the government to the Foundation exceeds \$200 billion. The RP currently has some \$30B total in its entire money supply so it will need some help to bring itself current. That can be easily accomplished with the help of GAIA and the Foundation.

5. A vital part of the program that must not be overlooked or forgotten is the fact that the government's payment of its debts to the Foundation will allow the Foundation to quickly pay the enormous accumulation of property taxes due to all of the Local Governments. As those billions of pesos flow to the Local Governments, they will be spent for a plethora of projects including schools, hospitals, roads and bridges, clean water supplies, waste water and garbage treatment and recycling, and so on. The impact upon the entire economy will be electrifying; no able person who wants to work for an adequate wage will be denied a job.

6. These are all actions that must take place to support even the EFP but they need not precede other actions. And, should it be discovered that there is no gold left at the mint, there are many other sources of gold that can be, and will be, brought in to the NTr. If the gold is in the mint, as it should be, it will be very convenient; if not, then other means can be taken.

7. It is useful to recognize, again, that the cost to government of purchasing gold to be brought into its NTr and used as the basis for its currency is virtually zero. To emphasize that statement: P80 billion worth of gold will cost no more than P80. This is not only true for the Philippines, it is also true for other nations with the help of GAIA.

IV. Controlling Graft and Corruption

- A. Just taking the above actions will go a very long way to controlling graft and corruption because they terminate the means of illegally transferring money offshore.
- B. To reinstate the nation, in the eyes of the international community, as a real "democracy", the former properly and constitutionally elected president must be reinstated, whether for 3 and one-half years or for 3 and one-half minutes. That is not a "choice" subject to someone's "druthers"; it is a simple fact and all of the twisting and worming around to avoid it only serves to delay while exacerbating the pain of doing so. There is no one in the country that places the country's welfare ahead of his own that has the experience to be a good president as has Estrada. "Try it; you might like it." As a measure of self-protection, we will restate that we are not meddling in the affairs of this nation; we are making a commentary to assist its citizens in understanding how the international community views the situation.
- C. Graft and corruption cannot be controlled by a lazy, procrastinating, corrupt judiciary system. To a foreign observer it appears that a Filipino's greatest fear is that he will work himself out of job. For some cultural reason, he cannot do today anything that can be possibly put off till tomorrow. Nowhere

is this cultural quirk more evident than in the judiciary, where there are virtually unlimited opportunities to procrastinate. Because of this, the backlog of work facing every Judge has become so enormous as to seem insurmountable. The solution we propose will cost a lot of money but it will eliminate all of the backlog and position the entire law enforcement and justice system to mete out justice fairly and quickly.

1. Put a fresh face in the position of Secretary of Justice, a man who wants to clean up the system and knows how. We could name him but the crabs in the system would rip and tear at him—better to wait until he enjoys the protection of already having been appointed.

2. With the virtually unlimited funds at his disposal, he will be able to temporarily hire retired judges and attorneys, as well as experienced active attorneys, to man temporary courts set up in churches, schools, meeting halls, etc., to take and resolve cases as rapidly and justly as possible. In a few months the backlog will be eliminated and those judges who can and will keep up with their calendar can be retained; those who do not can be discharged. If there is need for additional courts and judges there will be funds to construct courts and hire judges.

3. Corruption, especially in the law enforcement and justice system, arises as a result of inadequate salaries for clerks, police, and judges. It may require as much as a tripling of salaries to turn those positions into such desirable positions that they will attract the very best qualified persons. At the same time, people in those positions will not risk losing them for a relatively petty bribe and the system becomes self-reinforcing.

V. Peace and Freedom from Revolutionary Factions

- A. Mindanao, ARMM, MNLF & MILF
1. The "separation of church and state" does not work for followers of Islam.
2. Their religion is their bedrock; without it they are rudderless. Their religious leaders are trained to lead and the insertion of untrained politicians in leadership positions has not been successful.
3. That area, including but not limited to the area of the ARMM, was ceded to the Sultans and their Bangsamoro people in 1903. That gift (from the Royal Family that owned it) has not been properly honored by the gov't and there can be no real peace there until it is so honored.
4. The solution, for the government of the Philippines, is to authorize an acceptable (to that culture) religious leader to take charge of that territory and to immediately withdraw all military personnel from it. For a period of time, police will be needed there but as soon as possible those Muslim men who are now in the military services should be retrained as policemen and returned to their culture.
5. We must all recognize that the concept of "assimilation" has not worked. The only places in the world where it has succeeded are those places where the indigenous people were annihilated or completely diluted via cross breeding.
6. There is gold in Mindanao in all of the areas, Muslim, Christian and Indigenous. Muslims are taught to abhor usury and they need their own banking system. This fact was recognized by Ferdinand Marcos, who set up an Islamic bank for them. Unfortunately he was not around long enough to have them taught how to use it. When the Philippine money is gold based and they have their own banking system they will manage their own affairs without cost to the government. If there are natural resources in their territory that are needed or wanted by the government, the government will have

plenty of money to pay for them.

- B. New People's Army ("Communists"?)
1. As property tax money flows to the Barangays and Municipalities (see paragraph 5 on page 4 above) they will soon have so many projects and improvements in progress that a labor shortage will ensue. Not many men, especially men with families, will opt for the hazards and uncertainties of living off the collection of "revolutionary taxes" when they can be at home with their well-fed and happy wives and children every night. There is a saying that "Generals make war when they have an abundance of soldiers." Our corollary to that would be that even Communist Commanders become toothless when their "soldiers" are all gainfully employed at legitimate and useful projects.
2. It is reliably reported that many treasure sites are guarded by the NPA. If that is true then they, too, can become self-supporting by selling the gold to the NTr. The solution to this problem is quite simple for an honest government that will negotiate amnesties and grant safe-conduct guarantees so that ALL citizens are safe in their persons and property.

VI. Long Term Benefits

- A. As a reminder to the reader, as well as to ourselves, the primary purpose of this writing was to outline our recommendations to "arrest the current economic downturn and reinvigorate the nation". We are confident that the above recommendations will very quickly reverse the downward spiral of the economy, solve the hunger problem of the poor, and create several million new, productive jobs just in improving the infrastructure.
- B. For the longer term, the entire process of industrialization begun and fostered by those Administrations prior to 1986 must be re-established and continued. Eight million hectares of your prime pristine forest have been plundered and the land left barren and denuded; all of that land must be cleared and properly contoured before it can be reforested. One of your countrymen has developed a program for utilizing the interspatial areas to grow crops that provide ground cover to prevent further erosion as well as to provide feedstock for the production of ethanol, a high-value additive to gasoline and diesel that lowers cost, boosts octane, and burns cleaner. By using his technique some 10,000 workers per 30,000 hectares can earn a very nice living while turning what appears to be a mammoth 10-20 year losing reforestation burden into a first-year-profitable enterprise. There are many other innovative projects, not the least of which is the deuterium ("heavy water") in the Philippine Deep off Surigao, which is said to contain far more energy than all of the hydrocarbons (including coal) in the whole of the world.

SUMMARY

The Republic of the Philippines is situated where a few decisive actions can turn its economy completely around and produce very nearly instant prosperity for ALL of its citizens. Those actions are outlined in this paper and its companion titled "Steps and Sequence". We encourage dialog and stand ready to discuss our recommendations.

The following brief article shows the increasing popularity of Islamic (non-usury based) banking:

MORE BANKS ADAPT TO ISLAMIC FINANCE RULES
MORTGAGES ISSUED THAT BEAR NO INTEREST

By Jane Wardell, *Associated Press*, 6/20/05

LONDON—Retail banks offering interest-free mortgages and declining to charge fees for millions of customers?

That is increasingly the reality as banks around the world try to tap into the booming Islamic finance market, tailoring products for consumers who follow strict Shariah law, which forbids the giving or receiving of interest. The banks still find ways to make money through arrangements such as mortgages structured to include rental payments instead of interest, with the bank becoming the borrower's landlord.

Recognizing the demand, the UK Securities and Investment Institute, an industry group, announced this month it has teamed with Lebanon's Ecole Superieure des Affaires to develop a new specialist qualification in Islamic banking for financial providers.

The institute hopes to build on the success of Islamic banking in mostly Muslim countries like Malaysia and Turkey, as well as European countries such as France, Germany and the Netherlands that have sizable Muslim populations.

...Islamic finance is a major force in the world's economy, with Britain's Financial Services Authority estimating that assets held in Shariah-compliant accounts worldwide total \$200 billion to \$500 billion and growing at 10 percent to 15 percent a year.

Islamic finance has largely been confined to major investors, with average Muslim consumers in the West who want to live by Shariah standards finding few options. Many Muslims have been locked out of buying their own homes because Shariah law prevents *riba*, or usury—meaning traditional mortgages are off-limits.

"There's just been an absence of understanding," said Ruth Martin, managing director of the Securities & Investment Institute. "There has been a real gap and it has been a barrier to people understanding Shariah law and Islamic banking and to its development."

But Western banks are waking up.

Lloyds TSB Group PLC launched a Shariah-compliant current, or checking, account in February and home financing in March.

Lloyd's current account pays no interest and has no overdraft facility. Under the Ijarah home financing plan, the bank buys up to 90 percent of a house on behalf of a customer, who pays back an amount each month along with a rental payment as an acknowledgment that the property belongs to the bank until all payments are made.

HSBC Holdings PLC, Europe's largest bank by market value, is ramping up the services offered by its Amanah—or "trust"—division, which opened here in mid-2003.

Under the guidance of its Shariah board of scholars the bank plans to launch Takaful insurance for buildings and contents in July and commercial finance by the end of the year.

It is also switching its home financing plan from the Ijarah principle to a system called diminishing Musharakah—which incrementally transfers ownership of the property from the bank to the buyers as they make payments—after the Shariah board advised it was more in line with Islamic law.

...Islamic banking is also expanding in France and Germany. Deutsche Bank AG, ABN Amro Holding NV, Societe Generale SA, and BNP Paribas have all established such units in the past few years. And in Malaysia, Islamic financial instruments account for 10 percent of public and private financial dealings, up from 6 percent in 2000, the Malaysian central bank said.

Establishing Priorities: Who/What Is 'Important'

6/21/05—#1 (18-309)

TUE., June 21, 2005 7:45 A.M. YR 18, DAY 309

Manila, Philippines

RE: IMPORTANCE IS NOT ALWAYS THE SEQUENCE
PRIORITIES OF YOUR ADDRESS FOCUS—GCH/d

* * *

PRIORITIES

Oh please, readers, where are your priorities? When you move outside the box of your tight little worlds of expression, you seem lost in what might be "priorities" in sequencing information or activities.

I personally have spent years making an effort for you to have realization of "important" vs. "fame or fortune".

Who is, as example, most IMPORTANT: Adolf Hitler or George Soros? How about Alan Greenspan? But now: How about Amschel Rothschild or Henry the XIIIth? Confused? No, you are not for if you "are" then you have not studied your lessons. Try now, Esu Christos and see where your priorities place him/her.

The next consideration is: <theantechamber.net>. Where does this one fit on your priority list? Well, it fits both at the very most distant end of the list and yet, right at the top of our "mission" list of "clear the decks and confront the debris".

If we always put that fraud and fiction web site off our list it would certainly be unfortunate for a world in hurt even with such obvious deceit and outright lies in fabrication. But the person with "that" site has to totally hang herself and therein is the humor and tragedy of the facts of the matter. She has hanged herself! We have all the backup necessary—from her own rantings and documentations she has produced upon the face of the manifest world—to neutralize herself but prove the holdings as we state them to be.

Now that becomes a very important position as you reach out to consider that our "paper" is secondary in priorities but first in importance while we give public coverage of our very holdings while also offering ongoing activities in transparent and open presentation.

It is amazing that VK continues to repeat and repeat the lies even the face of total contradiction of what SHE PUBLISHED IN HER EFFORTS TO GAIN WELFARE AND PENSION PAYMENTS, UNDUE PAYMENTS FROM SUITS IN COURT AND OVER AND OVER ACTIONS TO GET, WITHOUT ANY MERIT IN HOLDINGS OF ANYTHING, ESPECIALLY A JOB, TO CONCLUDE ANY SUCH CLAIMS.

She seems to think us quite stupid in that she reads every edition of *CONTACT* and yet never gives, on her site, information whereat anyone reading her garbage can get either rebuttal or the paper in point. IT IS FINE WITH US, READERS! She further treats us as somehow having nothing else to accomplish save pay

attention to her.

We have the documentation and most of it is from her absurd and fraudulent copies of forgeries, fabrications and false statements. She has given at least ten versions, all radically different, of how she happened to possibly come by the Bonus 3392-181 along with dates THAT CANNOT BE TRUE—BY HER OWN PROOF IN OTHER DOCUMENTATION—TRYING TO HOODWINK THE VERY GOVERNMENT OF THE UNITED STATES OF AMERICA TO WHOM SHE CLAIMS UNDYING PATRIOTISM WHILE CALLING THE LEADERS OF SAME MURDERERS AND "SATANS".

We have stacks and stacks of affidavits, claims and outright libelous postings all meriting legitimate legal recourse. Who cares? At this point, not us! In her absurdities she has proven her own deceit and criminal fraud. She seems to forget her own compiled documents in book-form where to prove her absurd rights to funds she has presented the very line of confusion and fraud.

Among her little hatchet choppers, including misguided but equal in deceit and lying presentations, is Rayelan Russbacher of Rumor Mill News. When you first practice to deceive, and especially when the stakes are large, it is often out of control before the turn of the river and gains such speed and massive contents as to drown the swimmers.

We need two items in the Global Alliance Investment Association circumstance and those are fully contained and met.

As to the Bonus 3392-181 of such false claims by one VK Durham, we have the proof, the holdings and what she has cornered and refuses to present have no longer any merit for consideration—we have everything necessary—the conversion of the holding by Russell Herman into corporate holding and control and legal recognition of the very corporation itself. All else is secondary and her holding same is criminal action.

There is NO Durham HOLDING TRUST. VK was NEVER married to one Russell Herman—EVER.

She has some dozen causes of Russell's death and yet in her documents of prior times and placed nicely in a book of material—from her, she claims exactly what appears to be—that Russell Herrman (who knows if it is Russell Herman) was starved to death. Even VK can't have it all ways and mostly SHE was the caregiver. Russell didn't get starved to the extent of his deathbed pictures in a couple of days or weeks in a Veteran's hospital.

Does anyone ACTUALLY consider that we would be so careless with lives and standing as to do or be ANY of the claimed entities or offers described by said fraud-mouth? VK and henchmen come up with a new identity claim every week and it reflects total impossibilities of human expression—or dimensional magic. As the Vulcan Spock would say: "It isn't logical!"

Neither is it logical, reasonable or worthy of intelligence to go off equally half-cocked on the Tallano-Acop Foundation matters. Otherwise it

becomes as totally comedic and slapstick as VK claims, along with agreement by Rayelan (Rumor herself), of a light plane piloted by Russell Herrman-Herman and Gunther Russbacher, one dying and the other incarcerated in prison, to pick up gold in the Philippines, fly through Texas to Washington D.C. OR on to Austria with “all the gold” into the trillions and trillions of dollars and tonnes upon tons of gold. Then, the Texas Guard under the control of the Ekkers brought down the plane, Russell was knocked unconscious and the gold was GONE. Then, not to interrupt the incredible dialog—Gunther AND BUSH flew it on to Austria . . .

Repeat: IT IS ALL STUPIDLY IMBECILIC IN ALL PRESENTATIONS. YOU WHO BELIEVE THE BAT-POOP STORIES HAD BEST CHECK YOUR SANITY CIRCUMSTANCES.

Then, for some to come along and THREATEN our people? Oh my! If someone doesn't haul VK Durham off to the “funny farm” then someone else is going to get fed up, and that will not be us, and haul her to the local lock-down. Other of her “had-ees” are already after her for they found her stuff to be totally fraudulent and worthless—after having drawn agreements with her. This is shades of earlier BAD experiences with the person in point. In her bound booklet of documents she has also thanked us for our financial support so she can't even claim that we have misstated that fact.

This week comes a tirade against Col. Al Martin with an insulting blast. Oh my, he did protect her ass and good golly Miss Molly she blew that one too. The poor dear can't even tell the same story a second time in a row while SOMEBODY is paying her to continue the crap-fling.

Why don't we do more about it all in clearing our own position? OUR POSITION IS QUITE CLEAR and we don't want any attention or notoriety or other drag on our persons so certainly we would not bother with such a non-entity.

Who was Russell Herman? Well, I would suppose nobody will ever actually know, will they? I can assure you, however, that he was not doing the things VK claims while he was dying in 1994. I can also point out quite clearly that everything we offer adds up perfectly as to August of 1993 including signed documents (no longer necessary in any event). VK Durham is mentally challenged to the point of disability. She was never “on” the records she claims now to have been tampered or removed. The woman is deranged and to you who continue to do her service will stand the repercussions when the people and government security persons come to call. Fraud in information or outright theft is criminal and is a felony offense under the law—EVERYWHERE.

So be it.

We are now returning to the important focus of today as relates to us, the attention to the Philippines where we are attending business. Political chaos prevails and yet reaches such a conclusion of need for change as to be quite convinced that “something” will transpire and some type of “change” will come down.

I don't need to spend time on various foci as the published considerations are adequate and along those lines I ask that two columns from Monday's *Tribune* be published in sequence “here”. These are: Alejandro Lichauco: “Erap's political farewell and testament—which he will never deliver” and Herman Tiu Laurel's: “Estrada: Bridge over troubled waters”, both on page 5, “Commentary”.

The rats are abandoning ship (of State) and the would-be Takers are flooding the docks for a piece or, preferably, a high position on the grabber-platform upon which sits the Head of State—after becoming “headless”.

THE DECEIT IS EVERYWHERE

This is a tale of how it goes: One of the very reasons the first trip to Manila was made involved a nice Jewish man working on the Islamic-bank in place here His name, Satinover, is very definitely Jewish, no insult intended or inferred. He was so close that he did, in fact, take our Jewish attorney, Rhoads (from the States) to Temple, etc.

The man presented as an “attorney” and was from California but married to a Filipina as the tale flowed and more children were produced in addition to a grown family in the States. Fine so far? Well, yesterday, the bank OWNERS called and it was noted that Mr. Satinover is fully involved in some “deal” using shares of one of the people in the bank to raise money in China to pay for the shares, etc., only to now be presenting himself as a “doctor” from Australia. The miscreants have the shares all nicely signed over BUT certainly paid nothing as agreed on anything. Oh well? Oh well!

Shall we blame the Jews? Why not? Can you see how totally worthless it is to set these nitwit boundaries and supposed judgments onto people? Wrong is wrong is wrong and no repetition of the lies otherwise can make it “right”.

Does this incident change our position? How so? We don't even have a pick with Mr. Satinover as far as “we” are concerned—but this is part of what is wrong with your world, people.

Are these things, as with VK, simple distractions? No, they are seriously detrimental to reclamation or recovery of your freedoms and ability to grow beyond the limits of your shackles. GOD WILL NOT DO IT FOR YOU! Nor, shall we!

You as a whole seem to wait for “First Contact”, “Raptures”, total UFO hogwash and unbalanced and illogical, unreasonable toutings and offerings of something for nothing. There seems to be so little balance or ability to reach into TRUTH and reason while all distractions from Halloween to a holiday no longer having meaning other than material attention, Christmas, is blown to the winds while a soccer game in London can gain more attention from the masses than a WAR IN IRAQ. So be it for GOD ALLOWS and you are allowed your choices and that to which you contribute all the while you blame God and Angels for your sick plights. I would note that for someone who cannot even “copy” correctly, my name, I shall not give much credit or attention and that includes one VK Durham. It is the “holding” that is of value—not a misrepresentation of myths and conjured lies. This, in addition, is a fully human physical focus—not impacted by angels or higher-tamperers or lower-tamperers. Guns do not kill anything but people with guns who pull the triggers with bullets in chambers thereof—are the culprits. It ALWAYS boils right back down to “MAN”! Even the “How could God kill children?” has no meaning—GOD DOES NOT KILL ANYTHING! GOD CREATES—NEVER DESTROYS NOR KILLS. It is that even a natural earthquake is not an “act of God”; it is totally an act of manifest NATURE. If caused otherwise, it is through a conjured act of “man”. As John Wayne would say: “Get it straight, Pilgrim.”

Yesterday over Manila was a phenomenon in the form of a PERFECT cloud formation that reflected the accepted portrait of the Christos. It was fully formed, no distortions of likeness, nothing to “figure out” or “discern”—it just sat there in total wonderment. Is it a sign? Now, therein is the

discernment to figure out. So, will you look unto the heavens to find your way or continue in the muck? Choices are certainly YOURS.

In this country today there are not even enough Congressmen remaining in the country to carry a motion as they have cut and run—mostly to the United States—for protection and shelter. What if the U.S. just froze all those bank accounts belonging to the miscreants? It might be a worthy exercise! Moreover, for you native citizens I suggest you just keep your eyes open and see what Ms. Condoleezza Rice does with you and to your country, the land of milk and honey.

When will you consider reason and know that there was NO “Garden of Eden”, as a good example of BS? If, as presented, there was such a place you would be more screwed than you are, good buddies. From Adam and Eve would flow EVERYONE? How so? 6-7 billion of you? Wow, is that incest or what? Is that grounds for mutated genetic inbreeding or what? STOP IT!

Moreover, there should be no realization of eating of the “Tree of Knowledge” for so few of you would prove that to be so as any other myth of monsters and dragons. If you ate of the fruit of KNOWLEDGE—then it is so that 99% of you FLUNKED THE COURSE.

You can believe and hang onto anything you choose—but that does NOT cause us to dangle with you over the PIT OF DOOM. We will do that which we can and therein is the whole of it. Swing in the winds of wherever you wish for it has no demand for our attention other than to prove our position and stay the course.

Does this make for a lonely journey? From what would you be lonely? Do you cling to the lies and liars as if they somehow are your friends and that which keeps you from loneliness? Shame on you! Would you call back the smallpox after it passes? Oh indeed, some of you actually would do exactly THAT. Sometimes a perception of being lonely is in the remembering or expectation of that which was or perhaps was actually, NOT. Would you be lonely for the missing toothache after the blighted tooth is gone?

If you are lonely then I suggest you work toward recovery or redirection INCLUDING that which you wish to recover or command.

AM I MAKING SOME LAST-MINUTE EFFORTS TO CAUSE YOU TO THINK IN PREPARATION FOR THAT WHICH IS TO BE FORTHCOMING? YES INDEED, FOR YOU ARE ON THE THRESHOLD OF, AT THE LEAST, PROGRESS AND PERHAPS YOU NEED TO CONSIDER YOUR OWN “PERSONAL” EXPECTATIONS FOR WE WILL NOT DO THAT “FOR YOU”. GOD RETURNS THAT WHICH IS GIVEN, IN ABUNDANCE. HE, NOR WE, FORCE ANYTHING UPON YOUR IGNORANT BEINGS AS IF YOU ARE PILLARS OF SALT IN THE WILDERNESS. GOD DOES NOT REWARD HIS ENEMIES—HE ALLOWS.

Is it now time you decide that which you want and isn't it also time you WORK for it to create the perfect resolution to that which might trouble you? Until you decide your own direction you cannot decide another's even if your goal is to serve all others. Self is always right there in the middle of the “way”.

Thank you, and might YOU find understanding and thought-provoking realization in that which we offer.

Something Old, New & 'Something or Other'

6/14/05—#1 (18-302)

TUE., June 4, 2005 8:15 A.M. YR 18, DAY 302
Manila, Philippines

RE: "SOMETHING OLD-SOMETHING NEW" AND
SOMETHING OR OTHER!—DJE

* * *

GROWN UPS?

Are we actually digressing as much, literally, as it appears in my viewfinder? No matter how much headway we "seem" to gain it always appears with such questionable contradictions as to stagger the possibilities. Ah but, never mind for only in the ultimate outcome shall we know the true meaning and intention of the "play" itself. I did make a couple of steps forward in sorting things I have to have from that which is simply cluttering space I need for placing MORE STUFF in the form of papers and other debris.

If you had me on a witness stand in a court of law and under oath I would surely swear that some of these things of years long past in writings were only yesterday. Even the content is so inch-by-inch progressive as to shock and awe. However, new things are dumped onto our attention screens and must be attended promptly and so goes the cycles of both boredom and frustration, but, along with some very inspirational reminders of our journey to here or there.

You are going to find that we must bear with the boring countering of such claims as put forth by all kinds of adversaries to our position and, of course, VK Durham has done the most interesting attention-demanding statements bringing back into some modicum of Truth the facts involved. That means, readers, that you will please bear patience and witness for it must be confronted at every turn, these outrageous lies and accusations that she repeats *ad nauseam* along with her foolish site-bearers, i.e., Rumor Mills, *et al.*

It is not that the presentations are not verily FUNNY but beyond that, absurd, and from the clowns (not the clouds). The escapades recently posted on her web sites, etc., have again given a new and varied review of Russell Herrman's (Herman?) flight, as pilot, with Gunther RUSSBACHER to "bring back the gold". That seems to have now been brought to attention after blaming Ekkers for some kind of nonsensical cause to "bring the gold home" from the Philippines while somehow "blackmailing" somebody for something in a hostage position of some kind as she presents it in scatter-bombs.

Well, Herman and Russbacher were bringing that gold home, according to VK and supported by Rayelan (Rumor), that they picked up in the Philippines, loaded it all aboard a plane (turned out to be a small Cessna), headed for the Washington, D.C. Treasury and on, somehow, to Austria.

The gold bearing plane was brought down by jets of the Texas Air National Guard in a joint operation with the Texas Rangers [supposedly] under Ekkers' control, in Midland, Texas. When Russell awakened from unconsciousness the gold was gone. The

assumption is that somehow Gunther went on to Austria but that is not addressed by Ms. Durham.

Keep in mind that during this time Gunther Russbacher was mostly in a Missouri Federal Prison on felony conviction or later, in jail in Austria on criminal conviction, so, timelines need a bit of work if nothing else. Even lots of wine doesn't make truth of fancy—it just seems to.

Following release from Austrian jail Gunther dumped Rayelan, he said, and hooked up with a woman in London that apparently was known also by Raye who had a flipping fit over the deal where Raye was sure she wouldn't get her billion dollar cut of something or other—also involving the Philippines "gold" shifting of the above story. She put this onto other web sites such as Skolnick where she also claimed that Gunther was one of the "assassins" who took-out Diana in the tunnel. This also went out on many Internet sites and it amazes me that there are still viewers for this incredible hogwash. Even Gunther disallowed the latter charges in a public call to the various Web-Masters and which also got published thereon.

Then there is a bit of a blank in the tale since Gunther (Russbacher) seems to have got something or other and headed on to Austria. Now remember, intelligent inquiring minds, that the amount of gold in consideration here is well over 400,000 metric TONNES (TONS). A C-130 or the biggest craft known can only haul about 40 tons of that heavy metal called gold.

So, the story goes that in July 1994 Russell and Gunther loaded their Cessna with "all the gold" and headed off into the sunrise in a flight path over Midland, Texas to get to Washington D.C. and parts on further to Austria. OK so far?

The VK story goes that the plane, needing space for the boxes of gold, had the pilot's seats removed and all that flying had to be accomplished by sitting on boxes of gold. Now, readers, comes the more miraculous part of this tale:

We have found in a 747 superjet it takes about 13-14 hours from Manila to get to the very Western edge of the U.S. How long do you think it might take to make that flight loaded from corner to corner in a tiny plane? Moreover, calculate that it couldn't get off the ground in the first place because of the weight.

Now, consider please, the REFUELING of such a plane in a journey of about 11,000 miles to reach Midland, Texas. The Pacific Ocean is a big mother.

Oh by the way, lest we forget: Russell Herman DIED in August of 1994 (after assigning his interests in the "Bonus" holdings to "us" in 1993), **MOREOVER, HE WAS DYING ALL YEAR**, at the least. If, in fact, you see the necrological pictures of Russell Herman, you will note that his poor backsides could not have borne sitting on wooden or metal crates of gold even with use of a pillow or two. This tale represents the flight in July 1994 and Russell's death by myriad causes, mainly suffocation with an erection no less, in August 1994. The Flesh-eating problem is ANOTHER of the many problems heaped onto poor Mr. Herrman, Herrmann, Hermann—and lastly, Herman.

Besides that problem, she proclaimed that before Russell Herman entered her picture *IN 1987*, he had just come back from South America where he had picked up flesh-eating microbes that caused him to go blind. He was so blind, it seems per VK, as to be unable to even sign his own documents thereafter. Note that VK claims he was come to her after getting out, by escape or something, from a South American PRISON. Of course he was "set-up" by some of his own men.

She also claims that he was so tortured and had bones broken in 1993 as to be unable to sign anything but failed to mention the "blind" state of his physical self.

Now, in addition to THAT tale, VK claimed at that time to have been in a deliberately orchestrated "take-out" accident and was in a coma from which Russell had to even teach her to be able to again speak. She claimed then to have been disabled and mentally damaged. I believe the latter to be utterly true. But how can Rayelan (previously, Russbacher) sell the same garbage on HER Internet website? Is there something wrong with this picture? This is no more absurd than all the other rantings and fictions but certainly proves the point of some lack of credibility.

Oh by the way, all of her documentation she claims was filed IN THE COURT CLERK'S OFFICE ON AUG. 1, 1994—all prepared and signed in every instance by, ta-da, VK Durham in an effort to get EVERYTHING into her hands, frankly, prior to his death. She overlooked lots but mainly that he had turned over the asset in 1993 and she KNEW IT. Not only did she know it but Russell told us she had a copy of the document itself. This bears truth for it turns out that she used his signature on "that" document to further counterfeit his Russell Herman signature addition to her filings on August 1, 1994 false documents. If nothing else, VK Durham is one of the most prolific liars in history. She, of course, claims we stole the signature. Wonders never seem to cease. I cannot see how Ms. Durham has stayed out of prison!

My guess might be that she would probably be placed in an institution being considered incompetent to stand trial.

She also likes to broadcast, along with Rumor reading room presentations, that Ekkers somehow have single-handedly destroyed the world and all economies with filched use of her Holding Trust assets.

The fact that there is no holding Trust or anything else of Truth in the blather and postings doesn't seem to make a whit of difference to the mentally challenged parties involved. But, since the repeated tales are presented even to this week, we again must respond publicly.

VK has again drawn in poor Gammelsgarrd (misspelled by the way) of INTERPOL and all INTERPOL AGENTS along with "ALL THE BANKS" and if you name it, she has also named it.

Now for the good news:

INTERPOL has come to visit on several occasions with her interesting accusations in hand and it has worked out very well indeed—for our side! One major Interpol player who professed to be "over" all operations and agents in this area, at the least, was one among five parties visiting as recently as Friday last. We don't pay a lot of attention because we are quite sure that false names and identifications are presented in most cases and what the heck, they are hard to remember at best.

Many agencies are monitoring VK's sites and all LINKS offered.

Of all the questions that come to mind: "HOW MUCH SHOULD MENTALLY CHALLENGED PERSONS BE ALLOWED TO LIE, CHEAT AND

STEAL?" This has now become of GLOBAL proportions in her and Rumor's instances and the game is not as funny as it was in the beginning as the foolish nits have also threatened the very president of the United States of America. Worse yet, however, is that they pull into their own idiocy the presentations of good and honorable commentators. THIS is part of what has gone wrong in our world. We, wanting NO attention, are the winners in the presentation for slowly it becomes apparent that few even notice us. Even that which "was" now "isn't". My goodness, what a difference a day makes!

She has also BADLY quoted CONTACT as well as every other thing THEY present so it certainly becomes somewhat interesting if not time-consuming.

We have received a couple of other "heads up" about the ongoing "investigations" of the material as is circulating from VKD and all who show up here have copies of same in hand which makes response quite easy indeed. However, the plot is interesting as well because there are attempts to get us to make some foolish errors by somehow "offering bribes" or false information. No, we don't do either and it serves us very well indeed. Every operative goes away with copies of the paper while we get a clean bill of health. It is comforting and makes all the effort worthy of the ongoing work involved.

Oh gosh, we do have intrigue upon intrigue and it appears that again, Mel Brooks should be over here shooting every day. Another visitor came to give us a heads up warning yesterday and just suggested we pay attention to security because we are truly under surveillance but not to worry. Wow, how does one "not to worry"? Oh well.

The big "doom's day" events haven't fully been realized here even though the stuff is in every fan and blowing about in typical confusion. The U.S., however, wants to get Arroyo out of office but they want the outcome of just how and WHO to be determined by said U.S. The government here is beyond "broken" as it seems to be shattered into a zillion pieces with a large number of involved parties scooting to the U.S. and parts other than here while trying desperately to take their assets with them. It is called "loot".

So, what are we doing?

We are doing what we always do—pursuing documentations of value and checking it twice along with keeping our noses CLEAN. The underground grapevine still maintains there will be a "change" before June's end with a more controlled (by the U.S.) change-out of some kind.

Here is where I can get really enthused about VKD and her claims that the U.S. is protecting us at the highest levels of government. We don't believe it but surely does sound nice on a hot day in Manila (which is EVERY day). We are told to again stock up on some things like a few canned goods easily accessed that there are expected "brownouts" and inconveniences of such as that variety.

We are fine now, however, as if it is only a few days, this building has a generator which supplies adequate power for basic needs and allows for fans on separate circuits but no cooling or water-heater use. We finally got a hookup to LPG gas to the stove and keep it for such emergencies as might come so we are fine.

I'm afraid, however, that the intent must be to hit utilities quite hard to disrupt normal movement of people and certainly shut down all banking as we were also told to probably get a bit of cash on hand. So be it in the world of a national takeover without invasion of the Iraqi type.

Do we expect wipeout?

No, but then, we can't see to the end of the road. It would certainly be expected that a heck of a lot of whatever we hold or help manage will be

snatched, seized or attempts at both made in attempted take over—not "out".

Since we sit in the holder's seat of Global and of the FDN it would mean playing one against the other so it would appear it surely would be better to "deal" with us rather than do stupid strong-arm jack-boot types of seizure.

What in the world would not be to love by even the President of the U.S.? Half of the Global asset is sitting in reserve for immediate use IN THE U.S.A. It can ALL go against the purchase of gold in any amounts available, legally and responsibly, right in the Philippines as is structured already.

I suppose that leaves VKD to play her own ongoing game but she does NOT have what she claims to have and therein is the fact of it.

Are we willing to "die" for this cause? NO, NO AND NO!

The intent is to LIVE long enough to make some modicum of goodness WORK.

Certainly "we" can't fight any "force" battles with anyone—period. There is neither the wish nor desire to do anything even outstandingly foolish or, moreover, even as a notable publicly recognized action—AT ALL.

I think I would like, in fact, to buy this building and put "Durham" across the identification address. VK seems to want everything, and everyone, in the world to recognize her and scrape before her royal being. Good for her!

Since the only thing we are using is a mere portion of any asset(s), she can certainly deal with whatever the law allows. However, it would appear that she has absolutely NO STANDING under the law or otherwise.

For all we have accomplished in transactions, neither have we. Ah but, ours is substantiated lawfully and under court orders and proof of holdings from corporation holdings ESTABLISHED and registered to verification BY LAW!

What if VK has quintillions of dollars, as she claims? We only consider holdings which have backup potential of GOLD itself available. How much empty paper does VK need? I believe by now the assets accrued in interest alone on 3392-181 are into the "octodecillions" of moola. VK can't calculate it so why bother?

Could the U.S. avail of such wealth for debt payments, etc.? Yes indeed, and already holds enough of PHILIPPINE gold in lock-up to more than support the whole ongoing debt load.

What scares me bloodless is that we actually tried working with VK Durham and can only thank GOD that nothing came of it but ongoing harassment. VK wants to loop GAIA into everything. Well, "GAIA" was formed to handle Russell's portion and not until it was obvious that VK was and remains totally brain-challenged.

It turns out, interestingly enough, that Russell's assignment is of no consequence in the holding itself. The asset was put INTO Cosmos Seafood Energy Marketing, Ltd. AS OWNER THEREOF and remains so to this very minute. VK DURHAM has NO standing of ANY KIND in the corporation or otherwise.

VK has presented interesting things to the world and not the least is one that she offered several years ago on her early postings and faxes:

She claimed that she was born and trained to destroy me, Doris. She presented as the white Lighted party sent forth to wipe out my "dark" being. My goodness, if "Light" is her mantle where is Truth? If she is THE ADVERSARY, then what have we to FEAR in this world of warped experience? A lie repeated a thousand times does not make it other than the lie with which it began. What people choose to believe, however, is quite another issue so hanging with unchanging TRUTH is the only way to go—we have found.

VK claims something weird about notarization of documents four years after Russell's death and verification of his signature. NO, THE ONLY NOTARIZATION WAS REGARDING RICK'S SIGNATURE. NEITHER ISSUE IS OF IMPORTANCE NOW AS THE ASSIGNMENT AND OTHER VK DOCUMENTS ARE OF NO VALUE OR CONSEQUENCE—AT ALL. Russell Herman knew what he was doing and DID IT.

We do not know VK personally as in "met her" and neither did we know him personally, by personal meeting (OTHER THAN BY PHONE, FAX, ETC.). We certainly got a belly-full of VK while we treasured the input from Russell Herman, as we knew him and followed instructions right down the list of "to do".

Players come and go in passage "through" the game in play but that is also called "life", which also seems to be equivalent to "may we live in interesting times".

SPIRITUAL ASPIRATIONS

Having also been labeled Cult Leader and other amazing things I am not going to respond directly but to remind everyone of our readers that we have a very human task to do, I ask that last year's "update" be again run. It is appropriate for today for you to measure the gains as well as for us to refresh ourselves as to time wasted and lost to grabbers and power-hungry greedy people.

The writing in point refers to "God made me do it" as to George Bush and is a timely reminder for Gloria Arroyo also claims, "as with Bush" that God sanctions everything she does along with the U.S. Embassy personnel.

We now have the Foundation under full registration and very careful control and once again, we didn't actually have to do a thing to attain that coverage or sheltering. Amazing Grace is always at work when we just stay the course.

I ask that the writing of Thu., Jul. 10, 2003 (yes indeed, time flies) be added here. It is "RE: DIVINE INSPIRATION; HOT SPOTS IN TALLANO ESTATE LAND TITLES; AND OTHER MISCELLANY—DJE"

The Foundation has made more progress in the past two months than in the previous whole of the past two years.

We find that all the players have to finally get into step in order to take a next move even though we are impatient and seemingly, continually frustrated. As I write EJ is down meeting with two of our Trustees who seem to have new and wonderful information for our backup records.

We ask you to refer to the published information as presented currently by VK and our response to "inquiring" agents. Sorry about that but you need to know what VK is posting and most of you readers don't have web-internet use. We could do nothing else but fill everything with her trash but we won't do so. We will, however, have to run some things to keep abreast of what is ongoing. Thank you for being patient and curious enough to realize this too is YOUR journey.

We are told by legal counsel to run these things for public information and to support us in all confrontations. It documents publicly the slams and accusations, absurd as they are, as well as our response so that INTERPOL, for instance, doesn't have to make so many trips to visit.

In appreciation to everyone and as well, our gratitude for participation; we remain alive and well while this too shall pass. Hopefully that passage will be delayed long enough for us to conclude this task at hand.

DJE

Current Events in RP Are 'Too Hot to Hold'

6/18/05—#1 (18-306)

SAT., June 18, 2005 7:20 A.M. YR 18, DAY 306
Manila, Philippines

RE: THINGS ARE BOILING IN "THIS" PARADISE—DJE

* * *

Dear Ellen and Co,

You and EJ will have to decide what and to whom this can be sent for I am fresh out of energy or sorting capability.

My first major thanks are without doubt the most prioritized in my list of appreciations and that runs from MB, Joy & Walt, to Paul to Dave to Norm, Jerry and others to whom we owe gratitude for keeping us alive and going. There are so many more but today is special, for with these we have been able to reestablish some contacts and actually set up some conduits for use when we accomplish something here with these programs in order to be up and running as we hit the ground. There is, likewise, no way under the heavens to acknowledge individually the others who have stood the ground and kept the paper going even to antagonizing VK through our ability to publish international notices. Establishing a conduit, however, is the most important one step we have been enabled to make. There is more shifting and securing to be done but we can now handle it. Of course, Ellen, without you we would be nowhere so our appreciation of you, Ron and Valerie is off the scale. We could mention our patient kids and on and on but that will have to wait.

Ron and Valerie are handling the paper so incredibly well and we will continue to manage things in such a way that there is no risk of miscreants snatching and hauling assets. However, it is a bit much for my feeble brain as things move smartly along in every other avenue of expression TODAY. Each calls for attention when I least want to give it.

I don't want to offer more names because it is a promise of harassment from the publication of anything from which others can intrude.

I am trying—but as the term trying indicates, failing at—sorting and tossing, but, I have to get on with it. I save far more than I toss because each thing reminds me of why I saved it in the first place and I can't seem to give up my last shreds of family and whatever came "before". I sometimes wonder if anything came before. I am caused to consider that possibly nothing came before "A" (Alpha) and everything comes after "O" (Omega) which of course is not the "end" which is already a contradiction in consideration of whatever language you speak from Chinese to English to Greek. I think of that English alphabet to which I cling as the ONLY possible thing to speak or use (old age you know with old dogs) and realize that we start with "A" but end with "Z" obviously meaning "zip".

Filipinos all use our alphabet, except for the myriad tribal clans BUT it makes no difference—can't understand a word. So much for that dilemma.

I want to tell you specifically, Ellen, that we will be doing some shifting and holding and eking our way

through some tedious things so that if and when we make a giant stride for mankind (leap?) we can do so rapidly and easily. Anything in the U.S. must be handled so extremely carefully as to not step on any agreements or anything that can be considered toe flubbing.

We are faced with making a few decisions over here in limited Paradise of now being considered a leveraged set of potential graft possibilities in the Immigration circles. Nothing of merit or substantial reality—just botheration.

It is time to consider, however, when possible, the easing out of the position of the every month to two months extensions with annual restart into some kind of a category of "retirement" qualified parties. We have been assured that it can be done easily and rapidly—with money to hold in the bank, by the bank, for an allotted several months but would be totally secure but can't be used. Well, we have to use what we have and that too comes up about the same time as our "annual" "vacation" plan. We continue to come under too much inspection to go much longer without some effort at change. We will, however, continue as is until after our annual.

Commander asks that we renew this lease because we must have office presence for at least a year this time because things must continue here but financially, the peso is in desperate territory. However, so is the dollar and therefore to freeze the lease is the best way to go for SOMEBODY has to tend this mess of scrambled eggs.

However, we have to also be ready to MOVE OUT and therein is the push-pull of all decisions as to how in the world to even dump the debris of paper piles, books and other PRICELESS information resources.

Having been prone to nightmares about moving on those occasions of losing a home or something else "unimportant", I find the fragmenting interesting. Last night, for instance, I was truly back in Tehachapi parked in our very old and very tiny "camper" that fit on the truck MM now has. There was some amount of local bashing from prior acquaintances spouting off because in the camper, which had not even a potty, there seemed to be two full bathrooms under renovation of some kind along with some 16 to 18 people in the same 8X12 foot space and all wanting to know what we had done with THEIR stuff for there was no longer any trace of anything we had done and surely we had accomplished that burial quite magically. This included Bob Turner who wanted to know what we had done with his farm for it was not totally GONE. And, moreover, it had disappeared after he had sacrificed part of his life fighting HUKs in the Philippines (that makes the only sense in the whole picture as I will have to describe). I think we were parked near town trying to get moved to park on our South Lot.

We were parked to the side of the roadway next to Al's house and yes, he was there but the saddest person I can remember, seemingly wanting to be present but basically as invisible as possible.

I ended up quietly stating that we were going to take our Buck Owens generator, the big diesel tank

from behind our house by pulling it onto our lot and FENCING off the entryway in the rear to either hold the tank forever in place as to ability to remove it or move it to the high plateau in Utah to run heaters for Ostrich farming.

I guess it isn't too far out, where does an old "useless eater" go into the sunset? We deserve a sunset too!

I was floundering around at 2:30 a.m. with this off and on again saga when the moon made its half-hour viewing to the West. My goodness, it was red as blood and I almost awakened EJ to see but decided if the end has come it is sometimes better to just live with surprises. After all, it was only half a moon anyway.

Earthquakes in California? It is serious, Ellen, so pay some attention to safe places to put your body in a shaker—but not UNDER anything. Get alongside some heavy object that presents a safety triangle. I will try to find that writing about safety triangles and we should rerun it right away. At night just tip out of bed and lay along side it. A big chair or couch is best in the living room for there is both cushioning and sturdy blocking of falling things from topside. Keep a little special kit in that area as well with just a bit of water and a few "nutrition" bars for interim convenience.

So much for...!

I want to use the message Valerie sent on the topic of Gods as Astronauts as mentioned a few writings back. She found and copied to us some of *Creation: The Sacred Universe* and so I don't need the book any longer I suppose. Good grief, it doesn't matter anyway. God has always been a pretty busy "something" for a lot of generations. We get so busy dooming people to heaven or hell as to be shocking even to me who has such good view of God at work on a daily basis that I miss the miracles for the most part.

I chuckled at the release of the Terri Schiavo autopsy report where two "private" and paid coroners did the evaluation without allowing, by court order, any third party witnesses to assess damages. So, they only botched the report to the extent that nobody can "fix" it or have it accurately accepted. But, it is published anyway, along with evaluations of outcome that COULDN'T HAVE BEEN PRESENT IN SUCH CIRCUMSTANCE. Oh well, may we all live in interesting and BS times. Cremation ends the potential of ever "knowing".

In the BS (BAT Sh.) category, VK just keeps doing her thing and it gets more outrageous with every entry on the Internet. It is so interesting that we are now flooded with callers claiming to be from INTERPOL. Not JUST "from" INTERPOL but my goodness, don't we know, from the top HEADQUARTERS (in the Philippines but globally in control over all the service) and everything else is unfolding in such interesting ways as to boggle the boggled.

It is good, however, for in the searching for some modicum of backup we found that the last "big, BIG shot" was/is a man by the name of Quirino and whose sister claims he is Head of Interpol. Wow oh wow.

This is good, however, because there was a President Quirino in office AT THE TIME THE GOLD WAS LEASED FROM THE CENTRAL BANK FROM THE TALLANOS. CAN'T BEAT THAT FOR A CHAIN OF FOLLOW-UP. This "Quirino" claims direct bloodline to that President.

Now, don't put that too far aside because we have one last thing we need for PROOF of "purchase" and that is an agreement for leasing that gold and evidence of at least one payment—and therein it gets

really sticky-wicket time.

Our Foundation buddies went yesterday to a place up north and isolated some parties holding some of the documents from the old Administrator and claim to be holding other documents including those about that gold. Wouldn't that be dandy?

Not to understate the potential about that, it is the other information which is mind-blowing and all of you will enjoy the intrigue so will not put it here but get it into the next paper where we shelter our own backsides just a bit. It is going to again blow the cover of JFK's killing by people who were there.

I will say that one of the involved parties who knows but was not involved except to know it all was Col. Fletcher Prouty of the U.S. Air Force and Intelligence service. He was often associated with another Col. (but not from the Air Force), Ed Lansdale who was the mastermind of the assassination in Dallas and was on the scene as it came down. That still is not the biggie in my day, however.

We ran several interviews with Fletcher P. while back there in Tehachapi Wonderland and I think Rick even did one after the hanky-pank with *Spectrum* while still running on the fuel from *CONTACT*. It is fine and unimportant for it is the Philippine "connection" that is the incredible fallout of the day. Gee and golly whiz, they were over here in those old days making whoopee out of everything pertinent to today and all the way back to the creation of the "HUKS". [*Huk: Short form of Hukbalahap, itself the abbreviated form of the Tagalog name for the guerrilla force established in 1942, known as the People's Anti-Japanese Army (Hukbong Bayan Laban sa Hapon). In 1946 renamed the People's Liberation Army (Hukbong Mapagpalaya ng Bayan).*] Here is where I think of Bob Turner because he was over here in the Philippines fighting the HUKS and he stated to us that nobody could ever get ANYTHING done with the Filipinos and the only good HUK was a dead HUK so they deaded a lot of them and Bob said he helped with that game.

We have in hand, in front of me, a letter written by Fletcher P. to no less than Jim Garrison AND IT IS A GOODY. We will share it but, please, note that our focus is on the incredible happenings of taking over the control of the Philippines, overthrowing a government and getting out of position, Quirino. Worse yet, they did it just like they did it with Marcos, *et al.*, and even Noriega, when convenience overshadowed integrity on the part of the U.S. hierarchy, which always involved the Bushes one way or another.

Do I hate the Bushes? Gosh NO! I hope they never get after us in serious consideration and I mean "No sir and yes sir" are my standard response.

Ah but, the big boys are about to pull it off again as it is now pretty much decided that somehow Fidel Ramos, Carlyle Group-Amboy, CIA top asset, is going to restructure the Philippines and probably before the 25th of this month.

Then, there is the coexisting COUNTER COUP going to somehow put Erap back into the hotseat. But, it all, in all instances, means getting GMA OUT, DOWN AND GONE. All of the evidence and criminal charges are present but the big bloodletters haven't made it clear the route to take.

Can we do anything with FVR? I don't know BUT we will be stuck with whatever and whomever the "insiders" say we can. I would think a path would be worn to our door with other than selected questioners from some Interpol office or fabricated same and we are pretty sure it is so. We are certainly warned by those same insiders to keep low, know that we are under surveillance and all connections are tapped (an interesting turn of events under recent

"tapping" examples in the government.) We don't care and we don't bend or break so it is good. So, to those readers who have connections to FVR, we thank you for making sure he knows of us for he hasn't smashed us yet. My goodness, he "could" save these Philippines with giant strides toward service to a world in hurt.

I don't know anything about these people referred to above but certainly I do know that in 1946 to 1949, as mentioned in the letter, I was in high school and graduated 1949 to start my life of happenings usually while making other plans.

Unfortunately most was not too exciting all of the time. I was, however, secretary-receptionist to the State Attorney General in Utah when Kennedy was shot. I, in fact, was first to know as General Rich of the State Guard called me at the office. Shock and awe was afoot as it was a very political position and only a few days before we had all waved at Kennedy passing through Salt Lake City. I even hauled my little kiddies to "experience" the President even if they couldn't see a confounded thing, including the President.

I am reminded that we accept that these people exist although rarely have any of us actually seen any of them. God help us, though, if we can't prove GOD. I have to also remind myself that I am a Texan and did experience Johnson and Connally and was very happy to have them out of Texas even if to Washington. So much for more politics.

It is quite a lot of fun to note throughout the paper from Fletcher that he named others in the Philippines such as Soriano who was a wealthy, wealthy man. He apparently set up Philippine Airlines, now owned by Taipan across the street, Lucio Tan. He also owned, apparently, San Miguel beer company, now the biggest industry, including food, in the Asian area and still expanding. That is now mostly controlled by Danding Cojuangco whose son Charlie lives in the next apartment to ours. It is truly a small world after all. Perhaps it is no wonder VK blames us and calls us everyone else on the globe or is it truly that the buck does stop here? I wish someone had informed us! PERHAPS it is that this was the only way that the teacher could convince us rookies and pawns of dense brain disease to enter the game?

It is a bit like "Deep Throat" when the truth finally "outs". Or, perhaps the closer one gets to meeting the "maker" it becomes more enticing to tell some Truth. VK, however, must feel a long way from that day as she never cleans up her act.

Vina is a true one-of-a-kind. She spent hours telling us about the fact that Bush had Russell MURDERED, etc. She even told us and Atty. Knecht in Texas who was in charge of estate matters for other holdings of, supposedly, Russell, to the tune of \$500 MILLION that she had filed murder charges against Bush in court in Illinois and that, in fact, held up the final conclusion of sale on the precious artifacts Russell had "stored". Now this week she publishes that it was Clinton involved and she "never for a minute thought it was Bush". Does anyone other than me have a headache? Thank you, Ellen and Jack, for the anticipated aspirin shipment.

Other things are coming out of the travels yesterday of our guys to places North and lots of documents are going to flow back while even more are said to be coming later as other things take place. It is making things a lot more easily accomplished since Professor Ramirez, whom we have known for years now, is a published writer and respected greatly. He will be writing a history of the life, times and other tales of the Philippines with special emphasis on documented history of the Tallanos, *et al.* "They" (the contacts) even have copies of Land Bank Bonds we

thought were gone, even in reference, forever and ever more.

Perhaps living in our old camper, if MM will give us back our truck, is a good idea after all. I still like the best idea of having an office area next to "Ellen" and just live in the Best Western next to the restaurant for I certainly do not want to get reattached to the birds because I still cry over them every time there is a parrot show. I have to make enough to earn them a full retirement, mostly for Jack and Diane, permanently somewhere with people who will love and adore them. I have come to realize that God truly "gives" and man takes away while the journey has been long and quite sad at times.

I just saw last evening where there are now available parrot diapers, which come in all colors and sizes. Poop was always the big problem as with our little monkey Sam where we cut and made her own little diapers. I would probably go for it and would probably arrange for Diane to have some for Show and Tell. Willie, Tillie, Billie and Ringo were never potty trained. All "our" others are gone now which brings up equally bad memories of Rex Smith and the farm misadventures. Where oh where is my box of Kleenex?

We don't want too much of this memory plod down the lane for we are going to pull this incredible thing "off" and it is going to be a really big whinger. P.S.: You get very flexible when you don't have any choices worth considering other than the course punched in at the motherboard and under way. Meanwhile we just each and all go until we don't "go" any more. I'm confident it will work out to be in perfect order no matter what we would "druther". My goodness, if we can get this far in incredible land in just this five block area it is surely certain that we will accomplish that which waits at the next turn.

Thank you so much, Ellen, for researching the Children's Hospital matter for us because it would be a handy and useful little unexpected surprise since more time has passed since when we first were told about anything to do with annuities from that resource, teeny as it is. We had given it up as to a big flub of some kind because we were not supposed to have had to send ANYTHING—just wait. Oh dear, one more score for idiotic "thoughts".

This poor old football is so tattered that we just hope it holds air long enough to get it over the goal line. Others have helped so that we can, we think, make it and the recent help with forming a structure for management makes us we feel on top of the world about potential touchdowns.

I should note that years ago we spoke of the local Islamic bank here. Moreover, we wrote whole texts about Islamic-style banking and its wondrous ability to service, truly service, the people and the needs of nations. The people are back again trying to get it all up and running and it would be such a prime asset along with the Philtec Gold Bullion Depository already chartered and ready to go. I think the fat lady is tuning up and the sails are awaiting the unfurling or whatever sails do getting ready in the calm before the IMF final typhoon blows out. It is hard to believe that worthless paper (dollars, etc.) can keep whole civilizations separated from God and living while handlers corrupt and destroy. The true failure I feel and experience is in the realization of the ignorance come before. Do you think we can gather our little handful into our "rest home" and watch the fireplace aglow (with or without air-conditioning)? Sounds exceptionally good to me.

Love, D.

Save Your Life in a Major Earthquake

The following article was written over seven months ago but has not been run in the paper prior to now, so please do not just look at the date of the article and move along without absorbing the vital information it contains.

11/15/04—#2 (18-91)

MON., Nov. 15, 2004 2:03 P.M. YR 18, DAY 91

Manila, Philippines

RE: SAVE YOUR LIFE IN A QUAKE AND **STOP THE DUCK AND HIDE NONSENSE**—GCH/D

* * *

STOP THE WRONG INFORMATION AND SAVE YOUR LIFE AND LIVES OF YOUR CHILDREN

If your first intention is to toss this input I suggest you immediately reconsider, re-read, and go complain to your local school, church and preschool-childcare center. This information is being distributed to all dwellers in the more central locations of Manila, Makati and places where people gather and might be caught in a major quake. This is ultimately one of the most important survival bits of information you will ever get so get it scattered and STOP THE NONSENSICAL DRILLS SET FORTH TO INSURE YOUR CHILD'S POTENTIAL FOR INJURY.

Ducking and hiding UNDER something is a truly sure way of not surviving if you are in a building collapse circumstance. Get into (within) the "triangle of life" BESIDE the strongest thing in your immediate room—and that is NOT the doorway.

I don't need to explain this for it is nicely covered in the following emergency information to this hi-rise building. You are going to note this deals with immediate living circumstances but is ever so much the more important if you are at a mall so look around and check out the most sturdy ways to have a life-triangle in the event of being caught in a building collapse or major quake.

For you who would try the same in tornados I suggest you reconsider your circumstances for the situation is entirely different in those events where flying debris of actual "lift-off" is more crucial to consider. With that in mind we offer these suggestions and hope that you will clip them from the paper or make copies and PASS IT ON—especially to those in position of school instructors. If it doesn't make sense to believe this then I suggest you study it again—more critically. I also suggest if you know anyone in the Fire Rescue Service or other Rescue personnel (i.e. Eric and Audrey in local Tehachapi), get them better informed and take an interest in your own family's security since you are in Earthquake Country! This is an approximately 27-story condominium building and since quakes are hitting again and again in more

frequent intervals it is necessary to have everyone plan for such contingencies.

Total collapse of well-constructed buildings is not as likely as is falling debris shaken loose within the units themselves. In schools, however you find that you are dealing with, usually, single story buildings with some having two floors. The weight of overhead collapsing ceilings and roofs is your potential problem and if you or a child is under the desk they are most likely to get squashed fatally.

[QUOTING, *The Makati Tuscany NEWSLETTER*:]

This is in line with our safety and security program, and we would like to share with you information that we feel will help you prepare in emergency situations.

SURVIVING AN EARTHQUAKE

My name is Doug Copp. I am the Rescue Chief and Disaster Manager of the American Rescue Team International (ARTI), the world's most experienced rescue team. The information in this article will save lives in an earthquake.

I have crawled inside 875 collapsed buildings, worked with rescue teams from 60 countries, founded rescue teams in several countries, and I am a member of many rescue teams from many countries. I was the United Nations expert in Disaster Mitigation (UNXO51-UNIENET) for two years. I have worked at every major disaster in the world since 1985, except for simultaneous disasters.

In 1996 we made a film, which proved my survival methodology to be correct. The Turkish Federal Government, City of Istanbul, University of Istanbul, Case Productions and ARTI cooperated to film this practical scientific test. We collapsed a school and a home with 20 mannequins inside.

Ten mannequins did "duck and cover" and ten mannequins I used in my "triangle of life" survival method. After the simulated earthquake collapse we crawled through the rubble and entered the building to film and document the results.

The film, in which I practiced my survival techniques under directly observable, scientific conditions, relevant to building collapse, showed there would have been zero percent survival for those doing duck and cover. There would likely have been 100 percent survivability for people using my method of the "Triangle of Life". Millions of viewers on television in Turkey and the rest of Europe have seen this film, and it was seen in the USA, Canada and Latin America on the TV program *Real TV*.

The first building I ever crawled inside of was a school in Mexico City during the 1985 earthquake. Every child was under its desk. Every child was

crushed to the thickness of its bone. They could have survived by lying down NEXT TO THEIR DESKS IN THE ISLES. It was obscene and unnecessary, and I wondered why the children were not in the aisles. I didn't at the time know that the children were told to hide under something.

Simply stated, when buildings collapse, the weight of the ceiling falling upon the objects or furniture inside crushes these objects, leaving a space or void next to them. This space is what I call the "triangle of life." The larger the object, the stronger, the less it will compact. The less the object compacts, the larger the void; the greater the probability that the person who is using this void for safety will not be injured. The next time you watch collapsed buildings on television, count the "triangles" you see formed. They are everywhere. It is the most common shape, you will see, in a collapsed building. They are everywhere.

I trained the Fire Department of Trujillo (population 750,000) in how to survive, take care of their families, and to rescue others in earthquakes.

The chief of rescue in the Trujillo Fire Department is a professor at Trujillo University. He accompanied me everywhere. He gave personal testimony: "My name is Roberto Rosales. I am Chief of Rescue in Trujillo. When I was 11 years old, I was trapped inside of a collapsed building. My entrapment occurred during the earthquake of 1972 that killed 70,000 people. I survived in the "triangle of life" that existed next to my brother's motorcycle. My friends who got under the bed and under desks were crushed to death (he gives more details, names, addresses, etc.). I am the living example of the "triangle of life". My dead friends are the example of "duck and cover".

TIPS FROM DOUG COPP:

1. Everyone who simply "ducks and covers" WHEN BUILDINGS COLLAPSE is crushed to death—every time, without exception. People who get under objects, like desks or cars, ARE ALWAYS CRUSHED.

2. Cats, dogs, and babies all naturally often curl up in the fetal position. You should, too, in an earthquake. It is a natural safety/survival instinct.

You can survive in a smaller void. Get next to an object, next to a sofa, next to a large bulky object that will compress slightly but leave a void next to it.

3. Wooden buildings are the safest type of construction to be in during an earthquake. The reason is simple: the wood is flexible and moves with the force of the earthquake. If the wooden building does collapse, large survival voids are created. Also, the wooden building has less concentrated, crushing weight. Brick buildings will break into individual bricks. Bricks will cause many injuries but less squashed bodies than concrete slabs.

4. If you are in bed during the night and an earthquake occurs, simply roll off the bed. A large void will exist around the bed. Hotels can achieve a much greater survival rate in earthquakes simply by posting a sign on the back of the bottom of the bed during an earthquake. [Yes, we are still carefully quoting.]

5. If an earthquake happens while you are

Will Erap Estrada Return to Govern?

In the following article, journalist Herman Tiu Laurel refers to unconstitutionally-deposed Erap Estrada as 'the only viable transition leader' for the Philippines. As "outsiders" we favor no political candidate over any other—but look forward to an opportunity for making progress.

[QUOTING:]

ESTRADA: BRIDGE OVER TROUBLED WATERS

By Herman Tiu Laurel, *The Daily Tribune*, 6/20/05

Four-and-a-half years ago, I and at least 11 million of Filipinos raged at a series of events that cut a deep wound in the nation's soul. Destabilization led by Big Business (or the corporatocracy), corrupt Armed Forces of the Philippines (AFP) and Philippine National Police generals, jueteng lords, the Moro Islamic Liberation Front and mercenary intelligentsia, the withdrawal of support led by AFP "comptroller" clique and the Davide Supreme Court's constructed "resignation" committed the greatest injustice in modern Philippine history. A woman sworn in as "acting President" started presiding as a regular President and a reign of economic collapse followed—adding injury to insult.

Today, truth has come out in almost every matter of controversy throughout the five years that have transpired. The reign of lies is crumbling, but already opportunism and carpetbagging are rearing their ugly heads over the political scene. All sorts of little people are scurrying around and jostling to be the next ruler after the Gloria-Garci drama unravels the current regime. Noli de Castro [*current V.P.*] is waiting for the Ring of Power to fall into his hands. Harboring the golem in his heart, this Lopez and Manila Electric Co. dummy is not even considered by the general public for replacing Gloria. Ask around, there is no enthusiasm for Noli, even if he is the spare tire.

The Lopez link had flattened him before even getting on the road; but The Firm wants to run the flat spare tire, and that's clearly another reason why the public don't want another Firm puppet. More Piatco deals? More usurpation of judicial powers? Meanwhile the waft of Tabako [*a local reference to the ever-present Ramos cigar*] ushers in pawn moves to capture the Queen's square. Playing the old game of advancing multiple pawns to confuse the chessboard, he plays a soldier and a bishop so he may rush to the Queen's square. The gambit is aimed at beclouding the strategic position of the king.

Despite the obfuscation, there is one indisputable fact of Philippine political life today: The only political leader that has the only legitimate mandate is Joseph Estrada, the political leader that the public refuses to allow to fade away. After four-and-a-half years of internment in various confinements, daily media calumnies against the character of the man, persecution by a kangaroo court on various charges, Estrada has emerged from it all better loved, politically

stronger and actually the most viable leader to serve in the recovery period from the Gloria disaster. Consider the following:

Noli de Castro, supposedly the Vice president, has to visit the detained President Joseph Estrada at least twice to seek support to replace Gloria; a retired general whom some military factions have offered to lead a transition government insists on getting Estrada's support first, or no deal; more genuine opposition factions (which exclude Angara, and put in doubt a few others) have gone to Estrada for support: United Opposition, the opposition alliance, recognizes Estrada as the *primus inter pares*; and lately, several noted columnists have reported that even a US Embassy survey showed Estrada as the most viable leader.

The most important factor in deeming Estrada to be the only viable transition leader, and to my mind the only one who can be successful, is that the return of Estrada represents justice for almost 11 million voters who were grievously wronged in the 2004 destabilization and coup. National reconciliation and unity will be restored by this most basic step, there's no other way it can happen. Noli assuming the office of the presidency will not solve any of this; the injustice will fester and the 2004 elections cheating question will continue.

Over and above the political issues is Estrada's personal and human quality. He is the only Filipino political leader on the horizon that has his *palabra de honor*, i.e. integrity, the sum of it all. Paraphrasing what has been said of him before, what you hear from him is what you get. Human character is based on words. Animals cannot be dishonest because they have no way with words. The integrity of words and deeds is what human is, and those who lie are dehumanized by such acts. Gloria dehumanizes herself and the nation whenever she lies.

Look at our country now, police living on jueteng, abroad. Corruption and taxation thrive while street children grow in numbers. These are the consequences of a society of lies. Look at the spider monkey clinging on tenuous vines of power calling herself President. Estrada did not lie about his innocence and refused exile to prove this; he says his every act while in Malacanang redounded to the good of the greater number of Filipinos, and history proves this. Estrada's word has been solid, Gloria has been something else altogether.

Then Estrada's most important personal quality as a comeback leader: his Big Heart. It may have gotten him into trouble before but it may now prove to be his most valuable personal and political asset. While Estrada has taken very firm and vocal positions on burning political issues, he has never cursed nor damned even his worst enemies. They had all visited or are trying to visit him. He can bridge the people who love him and the people who hated him, and maybe we as a nation can start all over again.

[END QUOTING]

watching television and you cannot easily escape by getting out the door or window, then lie down and curl up in the fetal position next to a sofa, or large chair.

6. Everybody who gets under a doorway when buildings collapse is killed. Why? If you stand under a doorway and the doorjamb falls forward or backward you will be crushed by the ceiling above. If the door jam falls sideways you will be cut in half by the doorway. In either case, you will be killed.

7. Never go to the stairs. The stairs have a different "moment of frequency" (they swing separately from the main part of the building). The stairs and remainder of the building continuously bump into each other until structural failure of the stairs takes place. The people who get on the stairs before they fall are chopped up by the stair treads. They are horribly mutilated. Even if the building doesn't collapse, stay away from the stairs. The stairs are a likely part of the building to be damaged. Even if the stairs are not screaming, fleeing people. They should always be checked for safety, even when the rest of the building is not damaged.

[H: THIS IS NOT TRUE IN TORNADO OR HURRICANE DISASTERS BECAUSE THE INNER CENTER STAIRS ARE THE BEST PLACE ABOVE GROUND TO FIND PROTECTION IN SUCH STORMS. IN SUCH STORMS YOU NEED AS MUCH SPACE, WALLS AND DISTANCE FROM FLYING WINDOW-GLASS AS IS POSSIBLE. IT IS ALSO WHERE THE STRUCTURE HAS THE MOST SUPPORT IN ALMOST ALL INSTANCES.]

8. Get Near the Outer Walls of Building or Outside of Them if Possible: It is much better to be near the outside of the building rather than the interior. The farther inside you are from the outside perimeter of the building the greater the probability that your escape route will be blocked. [Use your head, though, in case the shaking causes the walls and "sidings" to topple "off".]

9. People inside their vehicles are crushed when the road above falls in an earthquake and crushes their vehicles: which is exactly what happened with the slabs between the decks of the Nimitz Freeway. The victims of the San Francisco earthquake all stayed inside their vehicles. They were all killed. They could have easily survived by getting out and sitting or lying next to their vehicles, says the author. Everyone killed would have survived if they had been able to get out of their cars and sit or lie next to them. All the crushed cars had voids 3 feet high next to them, except for the cars that had columns fall directly across them.

10. I discovered, while crawling inside of collapsed newspaper offices and other offices with a lot of paper, that paper does not compact. Large voids are found surrounding stacks of paper.

* * *

I suggest you truly take this information into your CONSCIOUS attention. When you teach yourself, your children and your friends WRONG ways of survival—good luck!

MEXICAN PRESIDENT ARRIVES IN RUSSIA

RIA Novosti, 6/20/05

MOSCOW—Mexican President Vicente Fox arrived in Russia for his first-ever visit Monday.

The Mexican leader is scheduled to meet with Russian senior officials, including Speaker of the Federation Council, parliament's upper house Sergei Mironov. Fox will also deliver a lecture at the Moscow State Institute of International Relations (MGIMO) and address the Russian-Mexican business forum at the International Trade Center.

"We are seeking to build new, more dynamic relations with Russia and this policy corresponds with our strategy of diversifying our markets and increasing foreign trade sales with European countries," Fox said on the eve of his visit to Moscow. "Our countries have a lot in common. Both Mexico and Russia are creating new economic models and conducting similar economic and social reforms, while the development of their economies is driven by the energy sector."

Fox found several issue on which Russia and Mexico share common interests.

"In foreign policy, **our countries are advocating a multi-polar world** and working jointly in this direction. Mexico considers it important to develop its relations with Russia, which is a permanent UN Security Council member."...

[END QUOTING]

Even as Russia continues to make friends all over the world, U.S. popularity continues to decline. The war on Iraq is now widely acknowledged to be illegal; the U.S. detention facilities at Guantanamo Bay are under scrutiny for illegal TORTURE; the U.S. has USED its "weapons of mass destruction"—including banned conventional weapons like cluster bombs and fire bombs—on civilian populations. Accordingly, it shouldn't be too shocking to discover that the U.S. gave the green light to Mossad units, collaborating with them in the slaughter of uncooperative Iraqi intelligentsia.

[QUOTING, emphasis added:]

WITH AMERICAN COLLABORATION, MOSSAD KILLS 350 IRAQI SCIENTISTS, 200 UNIVERSITY PROFESSORS

<Palestine-info.co.uk>, 6/14/05

BAGHDAD—The Israeli espionage apparatus, Mossad, was able to liquidate around 350 Iraqi scientists in various fields of knowledge and 200 university professors with the full cooperation of the U.S. occupation forces in Iraq since the fall of the Iraqi capital, Baghdad, last March 2003, **a report prepared by the U.S. State Department revealed.**

The report that was referred to the U.S. president George W. Bush pointed out that Israeli commandos and Mossad elements were operating in Iraq more than a year ago with the aim of liquidating Iraqi nuclear and biology scientists, among other scientists, and prominent university professors after the American attraction attempts failed to convince them to cooperate with or work in the USA.

"Some Iraqi scientists were forced to work in American research centers; however, the majority of them refused to cooperate in certain fields and fled the U.S. to other countries", it added.

However, scientist, who preferred to remain in Iraq

were subjected to severe torture, punishment and interrogation; nevertheless, the Israelis had a different view over those scientists and opined that they were a threat to the Zionist state; hence, they should be liquidated.

They exploited the recent rampant violence in Iraq and started the liquidation operations against those scientists who are considered as assets for the Arab and Muslim nations.

"Seven months ago, the Pentagon (U.S. defense department) was convinced of the Israeli idea and extended the necessary help for them to carry out their mission well", the report underlined.

An American security team was commissioned to gather the biography of those scientists and the way to reach them, and then the Israeli team would be entrusted with the assassination mission that yielded this number of murdered scientists and university professors....

CHINA, ISRAEL DISCUSS EXPANDING DEFENSE TIES

By Nina Gilbert, *Jerusalem Post*, 6/22/05

Expansion of defense ties with Israel was on the agenda during talks with his Israeli counterparts this week, Chinese Foreign Minister Li Zhaoxing said Tuesday.

Li, who spoke at the start of a meeting with the Knesset Foreign Affairs and Defense Committee, did not go into detail about the current dispute between Israel and the U.S. over the Israel upgrade of Chinese Harpy drones.

He said that during his visit he had held talks on expanding ties in the fields of "trade, army, culture, education and tourism".

Foreign Minister Silvan Shalom apologized to U.S. Secretary of State Condoleezza Rice earlier this week over the deal, and expressed hope that the crisis would be quickly resolved.

Defense Minister Director-General Amos Yaron is expected to be sacked as part of the deal to resolve the crisis with the U.S.

Li was asked by Labor MK Danny Yatom about U.S.-Chinese relations and how the ties were affecting Israel's ability to sell arms to China. Li responded that ties between the U.S. and China were improving, and that the main problem in the ties was Taiwan. He said China also opposed the sale of U.S. arms to Taiwan that could pose a threat to it, according to Yatom, who heads the Israel-China parliamentary friendship association.

Li also told Israel to prepare for an imminent influx of Chinese tourists as an outgrowth of deepening ties.

"I can let you know with some certainty that thousands of Chinese tourists will visit Jerusalem and other parts of the country. You are such an attraction. I have already advised enterprises of this country to prepare more hotel rooms for the upcoming Chinese tourism," he said.

Li also told the MKs that he was moved by his visit to Yad Vashem, saying it made him feel a bond between the Jewish people and the Chinese. He said 20 million Chinese were "slaughtered by the Japanese aggressors" during the same period of World War II.

"We should never forget history, instead we should turn it into united efforts to maintain world peace," he said.

Committee chairman Yuval Steinitz said the relations

with China were "extremely" important for Israel, referring to China as the "giant" and Israel as the "dwarf".

China has developed significant economic interests in South America and is acting to protect those interests.

[QUOTING, emphasis added:]

ALARM IN UNITED STATES AS CHINESE SPECIAL FORCES TROOPS BEGIN ARRIVING IN VENEZUELA AS AMERICAN PLOT TO ASSASSINATE PRESIDENT CHAVEZ DISCOVERED

By Sorcha Faal, <WhatDoesItMean.com>, 6/27/05

Russian Intelligence Analysts are reporting today that the Military Leaders of the United States have become alarmed over the transporting of Chinese Special Forces Troops to the South American Country of Venezuela.

The contingent of Chinese Special Forces, reported to number around 350, contain both Special Reconnaissance (SR) and Counter-Terrorism (CT) troops arrived in Venezuela during the early morning hours of June 24th in an apparent response to Venezuela's President request to prevent his assassination by American backed agents, and as we can read as reported by the *Reuters* News Service in their article titled "Venezuela parade switched over assassination fears" and which says;

"Venezuela's armed forces have changed the venue of a military parade marking a famous 1821 battle because of fears of an assassination attempt against President Hugo Chavez, the defense minister said on Monday. Gen. Jorge Garcia Carneiro said a planned June 24 military ceremony that was to have been led by Chavez on the site of the battle of Carabobo, west of Caracas, had been canceled."

Investigations being conducted by Venezuela Security Forces are increasingly showing that this latest South American assassination plot is being organized by the United States, and as we can read as reported by the *Latin American News Agency* in their article titled "Assassination Clues in Venezuela Point to Colombia" and which says;

"Clues on opposition groups attempting to assassinate Venezuelan President Hugo Chavez increasingly point to Colombia, although without the participation of the country's authorities, *VEA* newspaper reported Wednesday. According to the daily, Venezuelan authorities discovered for recruiting terrorists and hired assassins in Bogota and Cucuta an organized network, which is sponsored by Miami and groups linked to U.S. intelligence services."

...But according to a report from the *Forbes* News Service, Venezuela's President is continuing his defiance of these latest American threats to his life, and as he has been quoted as saying, 'Venezuela will never again be anyone's colony,' said Chavez, a harsh critic of the U.S. government, which he says has exacerbated poverty through 'imperialist' policies."

The difference though between the actions of the Americans against Chile in the 1970s, and now against Venezuela during this new century lies with China, who has the second greatest power in the world today is actively challenging the United States for world hegemony, and specifically at the very doorstep of the United States, and as we can read from the testimony before the United States Congress by Peter T.R. Brookes, Senior Fellow for National Security Affairs and Director, Asian Studies Center, wherein he states;

"Petroleum leads the list of resources South American states have to offer China. Venezuela is the world's fifth largest producer of petroleum that produces 2.5 million barrels per day, providing the United States with 13-15 percent of its oil imports. China has invested over \$1 billion in petroleum projects in Venezuela and is positioning itself to invest nearly \$350 million to extract

oil from eastern Venezuelan oil fields, as well as an additional \$60 million in natural gas wells.

“China is also on a military diplomacy offensive across the globe. China has formed military diplomatic ties with 146 countries and sent military attaches to 103 countries. China uses these exchanges to gather information on the host country, as well as other countries if possible, for military doctrine development as well as military intelligence purposes.

“In 2004, more than 100 military exchange programs took place, involving Chinese military leaders visiting more than 60 countries and senior officers from about 50 countries visiting China. Some exchange programs featured joint military exercises, security sessions involving military officers from multiple countries, combined seminars on defense and security, and field trips. China has military and security interests in Latin America as well. China’s presence at Signals Intelligence (SIGINT) facilities in Cuba directed at the United States is long-standing and well known, but China is establishing military ties in Latin America as well.

...Perhaps most tragic about all of these escalating events are that the Western peoples of the United States are virtually unaware of the gathering forces of Global War positioning themselves around them, much like the Allied Forces Against Germany during World War II.

And also like the Germans of last century, the World is preparing the basis for the War Crime Trials to be held against the American Military Leaders, and their citizens, and as we can read as reported by the *Associated Press* News Service in their article titled “U.N. cites reliable accounts of U.S. torture” and which says;

“U.N. human rights experts said Thursday they have reliable accounts of detainees being tortured at the U.S. base in Guantanamo Bay, Cuba. The experts also said Washington had not responded to their latest request to check on the conditions of terror suspects at the facility in eastern Cuba. That request was made in April.”

But as we have seen so many times from these strange peoples of the United States, they listen to no warnings, and even worse continually ridicule all who seek to inform them of the violent storm gathering on their horizon.

[END QUOTING]

In a world of “profit without conscience” it should not be too surprising to discover that recent success with Improvised Explosive Devices (IEDs) by the Iraqi resistance can be attributed to Israel.

[QUOTING:]

MOSSAD ATTACK UPON THE UNITED STATES ‘IMMINENT’ AS MASSIVE POWER STRUGGLE ERUPTS IN WASHINGTON OVER ISRAELI LASERS PROVIDED TO IRAQI INSURGENTS AND ISRAEL DRAWS CLOSER TO CHINA

By Sorcha Faal, WhatDoesItMean.com, 6/23/05

Russian Intelligence Analysts are reporting today that the United States Military Forces operating in the Iraqi War Theater have come under sophisticated bombing attacks utilizing Laser Technology known only to exist in Israel’s vast arsenal of weapons, and as we can read as reported by the *New York Times* News Service in their article titled “Redesigned bombs pushing U.S. toll higher” and which says;

“American casualties from bomb attacks in Iraq have reached new heights in the last two months as insurgents have begun to deploy devices that leave armored vehicles increasingly vulnerable, according to military records. The surge in attacks, officials say, has coincided with the appearance of significant advancements in bomb design, including the use of ‘shaped’ charges that concentrate the blast and give it a better chance of penetrating armored vehicles, causing higher casualties. Another change, a senior military

officer said, has been the detonation of explosives by infrared lasers, an innovation aimed at bypassing electronic jammers used to block bombs from detonating.”

The specific Laser Device used in these bombings has been identified as being a modified version of that produced by the vast International Arms Company named Israel Aircraft Industries for their ‘Smart Bombs’...

As the United States also places further sanctions upon the Israeli Government for both their massive spying operations being uncovered at the highest levels of American Political, Economic and Media leaderships and the passing onto China of some of the most secret United States weapons technology, the Israeli Government has decided to abandon its support of American and switch its allegiance towards the Chinese...

As Russian Intelligence Analysts have previously reported on about the Iran Contra Affair, that operation was entirely organized by both the Israeli Mossad and their American Intelligence Organizations sympathizers for the purpose of blackmailing the then United States President, Ronald Reagan, over his threats to end American support to Israel, and as we can read as reported by the *American Conservative Monitor* News Service in their article titled “Reagan, Begin, and Israel”, and which says;

“In December of 1981, the Israeli Knesset led by Prime Minister Menachem Begin, passed the ‘Golan Heights Law’ officially annexing the territory captured by Israel from Syria in the 1973 Yom Kippur War. Syria had previously used the territory to repeatedly shell Israeli civilian areas down below the Heights, and with massive public support, the Israeli government decided to solidify—in law—its determination never to return to such a situation. Till this day, there is a consensus in Israel, not to return the Golan Height to Syrian control. Reagan, angry, withdrew the ‘strategic relationship’ offer. As a response to Reagan’s previous statement about foreign countries making American policy, and his withdrawal of the ‘offer’, Begin gave a rousing speech, reminding all who would listen that Israel is not a ‘Banana Republic’. Israel would also not let foreign powers interfere with its pursuit of its vital security needs, such as securing the Golan Heights.”

As many American Presidents have learned, and as the present one is learning now, it is a frightful process for any country to contemplate, let alone actually begin a course of confrontation with Israel. However, with that being the old way of dealing with Israel the present American President, according to Kremlin insiders, has previously stated to President Putin that, “This problem is going to be solved once and for all.”

With last week’s events though and as we had previously reported on in our June 19th report titled “United States Air Force Put on Highest Alert Level After Israeli F-16s Attempt To Invade U.S. Airspace in ‘Bombing Run’ Towards West Coast and Mid-West Regions of

America”, it remains to be seen who will actually win this Secret War between the United States and Israel.

But to whatever the outcome of these present events pulling the entire world closer to all out war, it remains a fact that the United States has indeed embarked upon a course of action to radically change the entire Middle East, even if it means the destruction of Israel, and as we can read as reported by the Australian *ABC* News Service in their article titled “Condoleezza Rice concedes Mid-East policy failure” and which says;

“Now to that very candid statement by America’s most senior diplomat. The U.S. Secretary of State Condoleezza Rice has described America’s

foreign policy in the Middle East over the past six decades as a failure. She made the statements in a speech calling for democratic reform in the Arab world, at the American University in Cairo overnight. It's the first time a U.S. official has delivered such a tough public message in the heart of the Middle East. Critics of the Bush administration are describing it as hollow but risky rhetoric, while supporters say it was a bold and necessary speech at a critical time in history for the region."

It is no secret to any Government or peoples in the world, with the exception of the American people, that the only solution to the Middle East is the changing of Israel. It is also no secret to any Government or peoples in the world that Israel is fully prepared to see the destruction of the world rather than to see its policies change.

And the events of September 11, 2001 prove beyond anyone's guessing the massive power of Israel to do exactly what they say they are going to do, even to the destruction of the whole world.

[END QUOTING]

Readers might recall a picture of Mt. Kiliminjaro from a few months back in which the ('til now) perennially snow-capped peak is absolutely devoid of snow. 'Global warming' due to a build-up of so-called 'greenhouse gases' has been blamed for these changes but—as the Peruvian natives in the next article know—these changes signal 'the end of the

world'; or, as we understand it, the end of this CYCLE and the beginning of a new one.

[QUOTING:]

GLACIER DISAPPEARING: END OF THE WORLD?

Wall Street Journal, 6/17/05

QOLQEPUNKU GLACIER, PERU—About 200 men dressed in furry cloaks and woolen masks trekked up to a glacier whose ice is said to have magical healing properties. In the past these men, called UKUKUS after the word for bear in the local language, cut and hauled down large blocks of ice to share with family, friends, and livestock as part of an annual pilgrimage. These days, cutting the ice is all but taboo. The bear-men say their sacred glacier is disappearing. Over a period of two decades, its edge has drawn back 600 feet along the boulder-strewn slope leading to the church in the valley below. Even compared with last year, the glacier is noticeably smaller. That's a worrisome portent for locals who still worship snowcapped mountains as gods, or APUS. It's out of concern for the *apu* living here, the bear-men say, that they have decided not to take any more blocks of ice.

Although few on this remote mountaintop are aware of it, the demise of this Andean ice-cutting ritual is likely the result of global warming. The UN says rising temperatures are causing glaciers to recede

throughout the world, with some of the most pronounced effects on relatively rare patches of ice in countries like Peru that lie within the tropics. A study by the Peruvian government in 1997 found that the country's glaciers had shrunk by more than 20% over 30 years. The National Commission on Climate in Lima now predicts that Peru could lose all its glaciers below 18,000 feet in the next 10 years; all within 40 yrs.

The cosmological implications of the missing snow are clear to the people here. According to local myth, when the snow disappears from the tops of the mountains, it will herald the end of the world. *Qoyllur Rit'i*, which means "resplendent snow", likely started out hundreds of years ago as a rite to the *apus*. Later, in 1780 as tradition has it, Jesus appeared on the mountain in the guise of a little blonde boy. "When Spaniards had difficulty converting the populace, they invented a miracle," said tour guide Enrique Vera Farfan. Today Catholic and pagan traditions are fused, an effect known as syncretism. For instance, the glacial ice is deemed to be holy water, and it is also still revered as the *apu's* semen, good for fertilizing *Pacha Mama*, or Mother Earth. "It's the same thing," explained Mr. Vera between gulps of coca-leaf tea. "It's no wonder the snow is vanishing. It's because the *apu* is leaving. He's moving farther from this place."

In the Republic of the Philippines, comments and objections may be filed in writing by addressing Global Alliance Investment Association at 6751 Ayala Avenue, Makati City, Metro Manila, Philippines. Others may be addressed to Global Alliance Investment Association, P.O. Box 27800, Las Vegas, NV 89126, USA.

Frequently, in the absence of the "corpus delicti", it becomes necessary to resort to "circumstantial evidence". While the subject referred to herein is not the "murder" of an individual (it is likely to become revealed to have been mass genocide), the "corpus" of 400,000 metric tons of gold seems to be "missing".

In the court document DECISION WITH COMPROMISE AGREEMENT issued February 4, 1972 by Judge Enrique A. Agana, the sworn testimony in open court of Rev. Fr. Jose Antonio Diaz, also known as Col. Severino Garcia Sta. Romana, was that he had recently completed an inventory of the gold held in the custody of the Central Bank which amounted to 400,000 metric tons. The Solicitor General did not dispute that testimony, and there has never been any denial of the existence of that amount of gold (or of its having been leased to the government by the Tallano Clan) by any of the several Solicitor Generals who have appeared in the various litigations since 1972.

In its 139 pages the DECISION WITH COMPROMISE AGREEMENT contains a wealth of information scattered throughout its several sections. To summarize the sworn testimony (while avoiding reference to most of the many fictionalized accounts), the sequence of events is documented as follows: In 1935 Fr. Diaz was commissioned by the Royal Family (AKA Taguean-Tallano Clan) to move 617,500 metric tons of gold from Jolo, Sulu to Ft. Santiago in Manila; in 1939 Fr. Diaz, accompanied by some of the Royal Family, moved the gold to the Vatican for safekeeping during the war; in 1948-49 Fr. Diaz and his attorney, Ferdinand Edralin Marcos, were commissioned to return the gold to the Philippines; in 1949 the government leased the gold (for 50 years) to serve as reserves for its currency; and in 1972 the inventory conducted by Fr. Diaz, Don

Ganpins, Venezuela; Pres. Ronald Reagan, USA; For. Min. Ake, Ivory Coast; Pres. Satar, Bangladesh; Pres. Benjeded, Algeria; For Min. Genscher, West Germany; P.M. Trudeau, Canada; Pres. Lopes Portillos, Mexico; Prince Fahd, Saudi Arabia; For. Min. Pahr, Australia; For. Min. Guirriro, Brazil; and P.M. Zhao, China.

The first paragraph reads: "This special minute of the separate group meeting in special proviso, was called by the Group Chairman President of the Republic of the Philippines, Ferdinand E. Marcos presented a position paper, as holder owner, and counsel of Tallanos family clan sole owner of the 617,500 AU metals in metric tons, 500,000 pieces of diamond precious stones and 16,500 metric tons of Platinum previously deposited in old vault at the old Sentral bank Intramuros, Manila during Spanish time, transfer to Vatican during Worldwar No II, and transfer back to the Philippines the Atty. Ferdinand E. Marcos, in the year 1949, to help the establishment of the required gold reserves of the newly installed central bank of the Philippines, the family of Tallanos Clan approved of the central bank lent of 400,000 tons only."

After offering "...long term loan program for the benefit to the world progress for the world economic system..." the letter ended "...that all nations can be great again after the World War, witness my hand whereof, I signed this 11th of September in the year of our Lord, 1985, at Malacanang Palace, Republic of the Philippines."

Even though the evidence could still be graded circumstantial, it is piling up in such a mountain as to become insurmountable by those political forces dedicated to repression and oppression—to the prevention of the wealth being better distributed among all of the people. Among those "people" are those who "guard" the gold, whether it is in the Central Bank vault, in the treasure cave, or in the sunken ship. There are ones who know where it is and when they can know that they will share in the benefits of bringing it out, they will do so. All they need is a decent, law-abiding government.

The interest of the Global Alliance is completely transparent. GAIA has made agreements with the Foundation (the Letter of Intent of June 7, 2002 and the Memorandum of Agreement of November 10, 2003) to assist in the recovery of its properties. By doing so, GAIA not only assures its access to the gold it needs to back projects in the Philippines, but also to support its program of assisting other nations to obtain the gold upon which to base their currencies.

For the Corporation, dated at Makati, Manila, the Philippines, this 3rd day of June 2005.

NEVADA CORPORATIONS:

Multiple Benefits Of Keeping A Low Profile

Budget's "Tip of the Week" #9:

Keep a Low Profile

It has been estimated that over 90% of all lawsuits in the entire world are filed in the United States. A medium-sized business is typically involved in a lawsuit per year here and larger corporations are compelled to maintain teams of full-time attorneys to defend themselves. At the other end of the scale, an individual proprietor risks everything to engage in business without a corporate structure and even individuals who are not involved in business are at risk if they have any assets attached to their names. Meanwhile, the law schools keep churning out more attorneys at an increasing rate.

What's the solution? **KEEP A LOW PROFILE.** In business and in our personal lives, too, ideally it would be best to never show up at all on the enemy's "radar". In the game of "getcha" it is always better to present a minimal target profile for the "getcha gang" and the best way to accomplish this feat is very often through the use of Nevada corporate shelters.

In some cases it may be possible to shelter assets and income in a single corporation but when success is achieved and that first corporation starts to take on a higher and more vulnerable profile, it's time for some creative thinking. The first step should always be to **separate assets from potential liability**, so if you have an operating business it is good to ensure that it holds no assets of its own. Often the best solution is to have the operating entity lease its equipment from another, unrelated (by ownership) corporation. The next step could be to consider spinning off the existing business' departments into separate corporations: the marketing department could become a separate marketing company, as an example. Almost all businesses must purchase some goods from outside sources, so why not deal with a friendly supply company, one over which you may exert some control from behind the scenes?

Not only will this approach severely limit the prospects for damage by prospective litigants, it will also, by and large, keep the IRS out of your affairs. Audit rates continue to show (not surprisingly) that the smallest corporations have by far the lowest audit profiles. A corporation with less than \$250,000 in assets had an audit rate of just .28% in the year 2000, while the rate for a corporation with \$1 million in assets was more than **TEN TIMES** as high at 2.90% and the rate for the largest corporations skyrockets to more than ten times that figure at 30.51%.

The key to making this work is to treat each corporation as its own separate interest and to ensure that each entity always acts out of its own self-interest. In so doing you ensure that each corporation has minimal exposure to lawsuits and IRS audits and the aggregate exposure is far, far less than it would be with a single, high-profile corporation.
